TEASER

EXT. ROMULAN STAR SYSTEM - SPACE (OPTICAL)

A galactic overview of the alpha quadrant slowly appears and starts moving at light speeds to a zoomed in shot of the Romulan star system (Hobus). Several planets and systems pass by (including Romulus and Remus) until we start to see the Hobus star getting bigger on the screen as we approach the star. A starship flies past on its way to the star whirring as it goes. A Romulan mining ship in pursuit. The sun starts to turn a deep Red color and starts to expand and exhibit signs of instability. A close up of the sun shows the little science vessel ejecting the Red Matter capsule towards the sun as a Romulan mining ship is attacking just as the star starts to show signs of going nova. The weapons fire triggers a subspace vortex.

EXT. STARSHIP USS BELLEROPHON - SPACE (OPTICAL)

The sun starts to brighten as the Romulan sun starts to go Nova. The nova starts to expand and destroy the Hobus system and starts sending energy waves and stellar debris towards the ship as the ship is barreling towards the NARADA Mining Ship.

INT. STARSHIP USS BELLEROPHON - BRIDGE

The ship is at Red alert and the commander is ordering pursuit of the mining ship.

COMMANDER COLE Ensign intercept course of that intruder now.

Peoples voices from the tracking stations in the Hobus system as heard yelling and screaming one by one as the energy wave destroys the system. The romulan home world is in the path of the destruction and there is a lot of comm chatter. Captain Phillip's rushes out of his office to the bridge after seeing the flash and orders a pursuit course away from the wave. The mining ship disappears into the vortex with a flash of white light. Ambassador Spock's vessel enters the vortex seconds behind it as it tries to escape.

CAPTAIN NATHAN PHILLIPS
Oh my god, the Ambassador! Ensign
reverse course, get us out of here!

ENSIGN

Engaging now! Going to be a close one!

OPS OFFICER

Nova wave energy contact in 5, 4, 3...!

TACTICAL OFFICER
Shields won't hold against a wave
of that magnitude Captain! We're
going to scrape the edge of the
shockwave!

CAPTAIN NATHAN PHILLIPS All hands! Brace for impact!

ENSIGN

Maximum Warp engaged but its no use!

EXT. STARSHIP USS BELLEROPHON AT MAXIMUM WARP - SPACE (OPTICAL)

The starship is riding the energy wave and takes heavy damage and jolts out of warp as the wave blows past them while at warp. The wave Dissipates knocking the ship out of warp and damaging both nacelles which start leaking plasma. The ship drops out of warp and is drifting in space. The ship's bridge is damaged and multiple hull breaches with power offline. Emergency power is active.

INT. STARSHIP USS BELLEROPHON BRIDGE - DAY

The crew slowly recovers from the hit while the bridge is ruins due to multiple explosions and power spikes damaging consoles and electrical systems.

CAPTAIN NATHAN PHILLIPS Status report!... Oh no.. Terry! Bridge to Sick bay, we've got casualties up here.

DOCTOR

On our way

CAPTAIN NATHAN PHILLIPS
Computer.. Transport COMMANDER COLE
to sickbay.. Hang in there Brian...
Emergency transport..

COMPUTER VOICE

Primary command processors are offline, main power grid is offline, switching to emergency backup systems.

CAPTAIN NATHAN PHILLIPS Lieutenant Fischer, Do we have sensors available? Scan for the Ambassador's science vessel!

LT. FISCHER

Sir! Long range sensors are offline! Bringing the sensor array back online through secondary bypass systems, now. We have short to mid range sensors only available. Scanning! I'm not detecting anything in Hobus or the Romulan system.

CAPTAIN NATHAN PHILLIPS What do you mean, nothing?

LT. FISCHER

No radio signals. No industry, No vessels! Sir! Romulus & Remus, They have disappeared!

CAPTAIN NATHAN PHILLIPS How far out did the nova energy wave go? Also, why aren't we dead..

LT. FISCHER

Sir last scans indicated some sort of dampening effect which could have been created by the Red matter on the super novae. It's full destructive power was never reached but... enough to..

CAPTAIN NATHAN PHILLIPS Do we still have communications online?

LT. FISCHER

Yes sir

CAPTAIN NATHAN PHILLIPS Contact Star Fleet Command and inform them of our situation and tell them to get a relief vessel here ASAP... were going to need a tow!

CAPTAIN NATHAN PHILLIPS (CONT'D)

Things just got crazy in the Beta quadrant, oh and tell them...
Ambassador Spock is missing.

LT. FISCHER
Sir Romulan warbirds on an intercept course!

CAPTAIN NATHAN PHILLIPS

Perfect.

FADE OUT.

END OF TEASER

ACT ONE

FADE IN:

INT. USS FALCON - HOLODECK 2 - TRAINING SIMULATOR - DAY

Several weeks later. The crew are all sitting at there stations with clear anxiety about what is happening. Buttons and proximity sensors start to go off and the commander gets out of her chair

COMMANDER LESLIE DURHAM

Do it.

ENSIGN EDWARD ALVAREZ

Ma'am?

Enemy Romulan warbirds close in and several warbirds are trying to flank Falcons position but several are flying in tight formation directly aft as seen on the view screen.

COMMANDER LESLIE DURHAM Bikkir. When that lead ship gets to with-in weapons range. Lock all tractor beams on the lead middle ship. Ensign when those tractor beams engage, I want you to 270, mark 0 go to full impulse

ENSIGN EDWARD ALVAREZ Aye.. Remind me never to play chicken with you!

COMMANDER LESLIE DURHAM Steady... (pause) Now!

LT CMDR. BIKKIR VUUM Locking tractor Beam

COMMANDER LESLIE DURHAM Now battle section come to heading 145, mark 10 and deploy drones.

LT CMDR. BIKKIR VUUM Drones launched

COMMANDER LESLIE DURHAM Veer off battle section! Stealth section vector in and provide cover.

LT CMDR. BIKKIR VUUM 3 enemy targets destroyed. We're getting flanked by the two warbirds. Commander! I'm detecting incoming Fighters from their carrier group!

COMMANDER LESLIE DURHAM Deploy Fighters and countermeasures.

All of the Federation attack fighters launch from their bays and multiple photo launchers and pulse phasers start to fire for the incoming fighters.

LT CMDR. BIKKIR VUUM
Battle section reports its taken
damage and is on its way back to
us. Stealth section reporting its
covering and is continuing to carry
out hit and run attacks on the main
enemy battle group.

The stealth section and battle section continue to fight against the Romulan's. Two more Romulan raptors explode.

LT. CHARLIE WONG Commander, I'm picking up another energy pattern.. Looks like another romulan battle group is closing ahead.

COMMANDER LESLIE DURHAM We can't fight this many... Time to retreat.. Radio the other sections to rendezvous in sector...

LT CMDR. BIKKIR VUUM
Battle Section is disabled! Romulan
warships are closing!

COMMANDER LESLIE DURHAM Get us out of here. Maximum warp

ENSIGN EDWARD ALVAREZ Heading 017, mark 4 Warp 8 engaged.

Just then a hologram materializes on the bridge.

EC3H

I really liked that part of me you know!

COMMANDER LESLIE DURHAM Birdie, what the hell were in the middle of a simulation here..

EC3H

Oh sorry.. You know I could offer some tactics that might help you here.

COMMANDER LESLIE DURHAM Computer freeze program..

Just then the Holodeck door opens and CAPTAIN NATHAN PHILLIPS enters

CAPTAIN NATHAN PHILLIPS Well looks like the first run in the simulator was a little rough.. How was the chair though, comfy right?

COMMANDER LESLIE DURHAM Starfleet can't be planning to send us alone against that many ships.. There are limits to every ship design..

CAPTAIN NATHAN PHILLIPS
Starfleet wants us to be ready for
anything. Personally I'd like
nothing more than fleets of these
Falcon class ships on the upcoming
missions but Star fleet's got a
tight budget and has other plans..
Who knew warfare could get so
expensive..I seem to recall the
Dominion playing a major part in
that about 15 years ago (smiles).

EC3H

Captain. Is there a winning scenario or are you just quoting Captain Kirk in these games?

CAPTAIN NATHAN PHILLIPS
Much like Kirk, I don't believe in
the no-win scenario but we are
potentially going up against
ROMULAN'S.. So I'm not blind to the
facts either. Alright.. training
ended for today.. Lets take this up
again at 13:00.

INT. USS FALCON BRIDGE - DAY

Shot of the USS Falcon exterior flyby (OPTICAL)

CAPTAIN NATHAN PHILLIPS (O.S.) Captain's Log USS Falcon, Star date 65004.10 The Crew has been working hard to get the ship in order and complete all of the upgrades and systems completed in dry dock. It won't be long before were under way.

Captain Phillips walks the corridor and walks into the turbolift from Engineering deck. As he is standing he flashes back to when he was teaching at the academy about Romulan government and politics as he discusses romulan aggression his mind slingshots to the moment in slow motion of his parents death and him screaming at the romulan boarding parties kill his parents and then get killed themselves. The turbolift beeps and the captain snaps back to reality. The doors open and the captain walks onto the Bridge with a PADD looking over the daily security news while walking by several engineering crews on the bridge on his way to the ready room when ENSIGN ALVAREZ stops him momentarily

ENSIGN EDWARD ALVAREZ Sir, Admiral Janeway is waiting in your office.

CAPTAIN NATHAN PHILLIPS What? Why wasn't I informed?

ENSIGN EDWARD ALVAREZ
All Communications are temporarily
down due to the installation of the
new hyper space and federation
encryption module.. (pauses) you
know how the Admiral is sir..

CAPTAIN NATHAN PHILLIPS (smiles) carry-on Ensign.

INT. USS FALCON CAPTAIN'S READY ROOM - DAY

The Captain's office door opens and Captain Phillips

CAPTAIN NATHAN PHILLIPS Admiral. Didn't expect you until tomorrow, can I get you anything?

ADMIRAL KATHRYN JANEWAY I was in the neighbourhood and thought I'd drop by a little early.

CAPTAIN NATHAN PHILLIPS Okay, what's wrong?

ADMIRAL KATHRYN JANEWAY (concerned smirk) Does the replicator work yet?

CAPTAIN NATHAN PHILLIPS Just had them calibrate it last week.

ADMIRAL KATHRYN JANEWAY Cup of coffee then... black.. (skeptical)

CAPTAIN NATHAN PHILLIPS One Coffee...Black... Hot

Replicator replicates a cup of coffee and CAPTAIN PHILLIPS hands it to the Admiral and pulls up a chair.

ADMIRAL KATHRYN JANEWAY Damn... It's just not the same as Voyagers coffee.. You'd think after all this time they'd get the replicators to make a great cup of coffee..the Same way every time. They just don't make them like they used to..

The EC3H materializes

EC3H (O.S.)

Admiral if I were to interject here. The replicator has several varieties of coffee each from every variety on...

ADMIRAL KATHRYN JANEWAY I didn't realize coffee was a keyword trigger. Oh wait don't tell me, you're the new EC3H right? Do you always listen in on conversations?

CAPTAIN NATHAN PHILLIPS
Still getting used to that myself..
Starfleet wanted an ALL-IN-ONE
Emergency Counsellor, Command,
Combat hologram that also doubles
as a concierge occasionally to act
as support to the crew on these
longer voyages.. I think they felt
bad after .. No offence.. The
failed earlier Mark 1-5s .. No were
okay Birdie. Private mode.
Deactivate EC3H.

ADMIRAL KATHRYN JANEWAY Oh I don't know.. Our doctors got us through a lot... but BIRDIE?? (chuckles)

CAPTAIN NATHAN PHILLIPS
That's what the crew call him. Were
on the Falcon so were going with a
bird theme.. BIRDIE seemed
appropriate.

ADMIRAL KATHRYN JANEWAY Well I guess its better than E3CH... VOYAGER's EMH didn't choose his name until we got home from the Delta Quadrant.

CAPTAIN NATHAN PHILLIPS Yes I know, I had a chance to meet him!

ADMIRAL KATHRYN JANEWAY A hologram as a counsellor though? Voyager never had a counsellor onboard. Probably could have used one in hindsight. Having a hologram do that job though, that's going to take some getting used to even for me. It may take a while for the crew to accept the change.

Admiral Janeway takes a sip of her coffee and has a day dreamlike look on her face.

ADMIRAL KATHRYN JANEWAY (CONT'D) I do envy you Nathan taking these first steps with a new crew and interesting times ahead. Hell, who am I to argue with a holographic counsellor.

ADMIRAL KATHRYN JANEWAY (CONT'D)

The doctor was practically one anyways albeit a bad bed side manner in the beginning. Things worked out. Ultimately its whatever gets your crew through the rough times and makes it easier to complete your mission and improves the crews moral. I mean this coffee I'm drinking. It's growing on me and coffee in general has got me through a lot of bad times.

(momentary pause)
Holograms aren't going away any
time soon. I will confess flesh and
blood people are still the reason
why Starfleet wants us out here..
We are explorers after all
hopefully we get back to doing that
soon. Speaking of people.. How is
your crew shaping up?

The Admiral gets up and starts inspecting the office a bit and looks out the window and then turns back to Nathan

CAPTAIN NATHAN PHILLIPS You know it was the doctor who made those recommendations to Starfleet about counsellors.. (smiles) And yes we are starting to bring it together. This Falcon class vessel keeps challenging us technically. Starfleet really did design a masterpiece.. I'm just not sure they had enough time for field testing in real situations. The triaxialating warp core and power systems are giving us a bit of problem. She's got a bit more power than a small star base but our engineer is having a rough time trying to balance the intermix and power ratios while operating in the different modes.

ADMIRAL KATHRYN JANEWAY Vorik will figure it out, he had a good teacher. If I had this ship and its technology in the Delta quadrant... let's just say the threats we encountered on the way home would been a walk in the park! Let's talk about Romulan's...

CAPTAIN NATHAN PHILLIPS Yes the Romulan's..

ADMIRAL KATHRYN JANEWAY You've never spoken much about your past with them other then what little is in your Starfleet record..

CAPTAIN NATHAN PHILLIPS
The Romulan's killed my parents in
an assault on star base 247. My
parents were both star fleet
science officers.

ADMIRAL KATHRYN JANEWAY 247's that's near the Devlin system..

CAPTAIN NATHAN PHILLIPS There were reports that the Romulan's opposed the Research Starfleet was doing there and things escalated with the Tal shiar very quickly. The Romulan's attacked boarded the star base. The attempt failed. The federation council got involved and the skirmish ended but not before 29 dead and major damage to star base 247. The star base was rebuilt. Not much is left of the original. Keep in mind this was about 45 years ago, at that time Romulus was pretty much silent in terms of its Federation dealings. Most of the rest of Starfleet hadn't even seen a romulan for a 80 years or so, this was the exception. My parents paid the price. Most didn't even know there was an attack until much later.

ADMIRAL KATHRYN JANEWAY That must have been an awful experience for you, being in that time and place to grow up. I'm surprised the federation didn't respond more actively. The records are really clear what started it. Who was the commander of the star base at that time?

CAPTAIN NATHAN PHILLIPS
Admiral Black was in charge
although not an admiral at the
time, the federation did respond
but not in an effective way. The
young Tal Shiar officer involved
was brought in for questioning by
the Romulan's or so the federation
was told but extradition never
happened and he escaped justice.
Starfleet was just trying to avoid
a war. After that incident he
disappeared and the Romulan's claim
they had no idea what happened to
him.

ADMIRAL KATHRYN JANEWAY I'm so sorry about your parents Nathan..

CAPTAIN NATHAN PHILLIPS Thank you. But you didn't come here a day early to talk about my past..

The Admiral walks towards the door and motions CAPTAIN NATHAN PHILLIPS to follow her.

Both of them exit the briefing room and walk into the hallway adjacent to the bridge where there are several other rooms and the main turbolift shaft.

ADMIRAL KATHRYN JANEWAY There's been some concern by some of the counsel members at Starfleet and there might be an short inquiry.

CAPTAIN NATHAN PHILLIPS An Inquiry? On what?

ADMIRAL KATHRYN JANEWAY Your conduct on the BELLEROPHON.

CAPTAIN NATHAN PHILLIPS
But the inquiry and incident report
was closed..

ADMIRAL KATHRYN JANEWAY Well... some are questioning if you are the right Captain for this mission.

CAPTAIN NATHAN PHILLIPS You mean the mission you haven't given me yet..

They enter the main turbolift

CONTINUED:

ADMIRAL KATHRYN JANEWAY Engineering, Command section, Deck 15!

Turbo lift door closes and engages.

ADMIRAL KATHRYN JANEWAY (CONT'D) Alright, look. There's no easy way to say this so I'll just say it. Some of the other admirals don't feel you are ready or fit for dealing with the Romulan's. They think there's too much baggage and that entrusting their latest ship to a captain after the last incident didn't sit well.

CAPTAIN NATHAN PHILLIPS Okay.. When does this inquiry take place?

ADMIRAL KATHRYN JANEWAY On my authority, I've had them put it off for now. I like you Nate and I don't want to see a good captain get tangled up in what I refer to as "Economic politics".

Turbolift stops

ADMIRAL KATHRYN JANEWAY (CONT'D)

Hold Door!

CAPTAIN NATHAN PHILLIPS Economic politics?

ADMIRAL KATHRYN JANEWAY You know as well as I do. The Federation isn't as resource friendly as in the past. There a little "bent" out of shape on the extent of the damage to the BELLEROPHON. That's part of the issue, but losing Ambassador Spock was a huge blow to the federation.

ADMIRAL KATHRYN JANEWAY (CONT'D)

I personally think they are looking for scape goats here. Look I don't want to bring all of this up now before an important mission..

CAPTAIN NATHAN PHILLIPS

Door Open!

He turns back to Admiral Janeway

CAPTAIN NATHAN PHILLIPS (CONT'D)

Thanks for giving me a heads up..

CONTINUED:

ADMIRAL JANEWAY and CAPTAIN PHILLIPS enter engineering and meet at the main station.

ENSIGN EDWARD ALVAREZ

Admiral on Deck!

COMMANDER LESLIE DURHAM

Admiral

ADMIRAL KATHRYN JANEWAY

At ease everyone.. Thank you all for joining me, Normally I'd just send over the mission briefing and have CAPTAIN PHILLIPS relay this mission briefing himself however I decided that this mission is too important to the future of the Alpha quadrant to leave the crew of Starfleet's most advanced Vessel out of and I wanted to speak to you all personally. Also, I won't be joining you on this mission however many of Starfleet admiralty will be visiting and staying with the ship where oversight is needed along the way.

Just then the EC3H appears

EC3H

I must have missed my memo?

COMMANDER LESLIE DURHAM

Birdie, don't interrupt the Admiral.

CAPTAIN NATHAN PHILLIPS

That's my fault. I forgot to include you.

ENSIGN EDWARD ALVAREZ Birdie how did you find out about this meeting anyway?

EC3H

I am not only an officer but the ship too remember?.. I simply read everyone's memos.

CAPTAIN NATHAN PHILLIPS We will discuss Starfleet privacy later...

ADMIRAL KATHRYN JANEWAY Alright everyone lets get focused here. We've got a lot to cover..

She draws the crews attention to the mission briefing on the LCARS DISPLAY in engineering

ADMIRAL KATHRYN JANEWAY (CONT'D)

The mission.. Is to assist the temporary Romulan government with supplies, resources and security while the shift in power takes place. Since the loss of the Romulan star system and surrounding areas.. The political climate has shifted. Star fleet intelligence has been working hard over the years behind the scenes to bring the Romulan's into the fold. Your job is a carry out diplomatic and escort duties for the temporary ruling counsel. Your first mission is to bring them here to federation space for initial planning talks for the basis of establishing long lasting diplomatic relationships with them and to investigate and prevent, if possible, a Romulan civil war.

CAPTAIN NATHAN PHILLIPS
You each know your duty and are
continuing to run tactical drills.
We will continue those as get ready
to approach Romulan space.

ADMIRAL KATHRYN JANEWAY I know this is a new crew but its a good crew. You have a fine ship at your disposal and a great Captain to guide you all.

LT. WONG

One question Admiral, the Romulan's haven't exactly been allies in the past, they usually serve their own interests by using the Federation. What type of limits are we imposing here on getting involved. Does the prime Directive still apply?

ADMIRAL KATHRYN JANEWAY Lt. Wong, your absolutely correct. The prime directive should apply and the federation normally does not get involved in other sovereign nations conflicts however this circumstance is a little different. The federation has been involved and is part of the target of the hostility from some of the romulan sects. Other sects are looking for genuine help and we need to provide that. Were the only organization that can at the moment and has the will to do so. Ambassador Spock once said, that "the needs of the many outweigh the needs of the one or the few" and then proceeded to make peace with the Klingons. This time its our turn only with the Romulan's. If we can make that happen the Alpha quadrant will be a much safer and open place to live. I mean think of it.. Peace in the alpha quadrant, means we can get back to exploring and really venture further into the galaxy or even beyond.

CAPTAIN NATHAN PHILLIPS
Coming from you Admiral, going far
means a great deal further. Alright
everyone, This is what you all went
to the academy for and what this
ship was designed to do... Lt...
You looked troubled..

LT. CMDR. BIKKIR VUUM Forgive me Admiral but I've lived with the Romulan and Klingon threat for years on Nassauica. The Romulan's are not going to voluntarily change over night nor are they particularly trust worthy..

LT. CMDR. BIKKIR VUUM (CONT'D)

Losing Romulus means all out war. Things are going to get violent fast. Then there's the Tal Shiar... The even bigger threat to us and the ones we really need to focus on. Is the Federation completely prepared for this?

CAPTAIN NATHAN PHILLIPS

(turns to Janeway)
Bikkir also suffered at the hands
of both the KLINGONS and ROMULAN'S
during his time in the Nausicaan
border wars and Klingon expansion
years...

ADMIRAL KATHRYN JANEWAY I know.. I read his file.

Admiral Janeway turns back towards Lt. Vuum

you'll do fine.

ADMIRAL KATHRYN JANEWAY (CONT'D)
Mr. Vuum I can't promise your not
going to run into trouble. In fact
trouble is probably more than
likely and Starfleet is definitely
concerned about the Tal Shiar as
well as other possible power
grabs... but take it from me, I
survived the delta quadrant with
much less. This ship of yours is
only starting to scratch the
surface and your crew is a
fantastic crew and you will have
some fleet support in case things
go awry. Trust in your team and

Admiral Janeway starts to walk back towards the display and then towards the entrance way to ENGINEERING

ADMIRAL KATHRYN JANEWAY (CONT'D)

The Romulan crisis is at the heart of Starfleet's discussions right now. With that I am late for a staff briefing with Captain Riker, he's heading the emergency task force preparedness drills on The Enterprise. Falcon is scheduled to leave orbit 1600 tomorrow, Oh and Nathan?

ADMIRAL KATHRYN JANEWAY (CONT'D)

Send me a status report as soon as you meet with the Romulan Ambassador and prepare a full report on your way back, the brass is looking at this in a lot of detail. I'd love to hear about Romulus.. That's one place Voyager never visited!

The Admiral starts to walk away but then turns abruptly back towards the crew before they break up the meeting

ADMIRAL KATHRYN JANEWAY (CONT'D)

Oh.. I almost forgot.. Your new science officer will be coming onboard along with the Ambassador when you arrive at NEW ROMULUS.

CAPTAIN NATHAN PHILLIPS Admiral? I thought you told me Lt. T'Pang was...

ADMIRAL KATHRYN JANEWAY There's been a change in plans ... The New Romulan acting proconsul wants to send one of theirs instead... Starfleet is calling it an exchange program for now .. Something we had to agree to.. I know I know... I'm not crazy about it either.. Keep an eye on whoever they send but if we want to build relationships with the government we have to concede to deals like this occasionally. Oh and there's the little issue of a federation cloaking device on the stealth section.. Treaty of Algeron? Still in effect.. at least for now as that's another reason they want someone here on the bridge

CAPTAIN NATHAN PHILLIPS
Romulan on the bridge...This
mission is shaping up to be
interesting. Okay thank you
Admiral. Okay Dismissed everyone..
We have work to do.

ADMIRAL KATHRYN JANEWAY Good luck Everyone.

The Captain turns towards Lt. Vuum

CAPTAIN NATHAN PHILLIPS
Lt. Vuum, please escort the Admiral
to the transporter room. We will
reconvene at 16:00 hours today for
more battle drills. Dismissed.

INT. ROMULAN STARSHIP "KATAR" BRIDGE - SPACE (OPTICAL)

The romulan scout vessel's screen shows blurred sensor readout of the USS FALCON deck 10 engineering and plays the last 5 seconds of audio of the Admirals briefing to the crew.

ROMULAN SUB-LIEUTENANT Sir we've confirmed location and timing for the Falcons mission to new Romulus. They will approach the new romulan government sector tomorrow. It appears they are in fact going to interfere in our affairs after all.

ROMULAN CAPTAIN

I think this information will be quite useful to the Military high command... Back us off slowly and head for one of their gas giant's moons at impulse. That should mask our warp field departure from the system. Then head back to romulan space.

ROMULAN LIEUTENANT
Sir our spies have been able to
download a partial schematic of the
Falcon's engineering core and
defensive systems... and our spy
has indeed planted the device..
Transmitting data to HQ...

ROMULAN CAPTAIN
No, not yet. I want to learn all I
Can first and use this as leverage
with the Tal Shiar.

ROMULAN SUB-LIEUTENANT Sir, That's in direct violation of the Tal Shiar's orders.

ROMULAN CAPTAIN
The Tal shiar are not in command here. Carry out my orders..

ROMULAN SUB-LIEUTENANT Sir, The orders come from the Tal Shiar directly and you must follow them!

ROMULAN CAPTAIN
My loyalty is to the Romulan
people! The Tal Shiar are nothing
but mindless rule pushers with no

great agenda, they are weak and bureaucratic... Do you agree sub-lieutenant?

ROMULAN SUB-LIEUTENANT (the crew start looking at the captain as if something is going to happen... the lt. Clearly confused and is a little bit annoyed with the captain)..

ROMULAN CAPTAIN
Well? I suggest you make your
choice now.. I'm not going to ask
you again.. Where are your
loyalties with...

Another Romulan lieutenant reaches for his DISRUPTOR with the intent on aiming it at the captain. The captain sees this action happen but is unfazed. The Lieutenant fires the weapon and the weapons officer fires at the same time vaporizing the Lieutenant. The Captain's chair force field disperses the blast and protects the rest of the crew.

ROMULAN CAPTAIN (CONT'D) Ha-ha, you see!.. I knew we had a traitor onboard. Let that be message to all traitors.. The Tal Shiar are no longer our masters of fear!.. We will rid ourselves of them and build our own forces to be reckon with.. By the raptors claw.. I vow we will achieve what others have failed to do for all these years... The Romulan Senate.. The Praetor.. The Remans.. All failed to lead Romulus to glory and they have failed us and we have paid the ultimate price! Romulus may be no more but we still exist and will make our enemies pay and anyone who aligns themselves is a traitor!

The Captain gets out of his chair and starts walking around the bridge and touches each officer on the shoulder.

ROMULAN CAPTAIN (CONT'D) The Federation wants peace but what they really want is to assimilate us and take away our way of life. They plot and poison our minds with foolish concepts. We can't let that happen! Once our enemies are all gone we can finally restore order and peace to our people and build Romulus in our image and our voice! The masses will rejoice in our glorious unity. That same single voice will shake the vary core of each world. When you say our name... Romulan! They will tremble once again! The Federation wants to interfere? We will show them the price of their arrogance!

The Captain points to the screen.

ROMULAN CAPTAIN (CONT'D) And were going to start with that vessel. The USS FALCON!

INT. USS FALCON MAIN FIGHTER BAY - DAY

A fighter pilot Ensign walks through the corridors with his helmet in hand gets into the turbolift.

ENSIGN

Flight Deck - Command Section, Deck 32

Turbolift runs and then opens and enters the hallway and sees a sign that shows the direction to FLIGHT DECK 1 or FLIGHT DECK 2 turbolift. The Ensign enters the lift and then exits and turns another corner and heads to Flight Deck 1 Where a LCARS SIGN shows the status of the flight deck that says LAUNCH STATUS. The ensign enters the flight deck upper level to see a giant flight deck operation under way. The Ensign proceeds to the COLLAPSABLE ELEVATOR SYSTEM and heads down to the deck floor. The Flight Deck is current fully extended. The Ensign hands the Lt. A PADD.

LT. MAX ARROWMAN Thank you Ensign

The Lieutenant reads the PADD about the Drills and Flight roster approvals. Just then he sees the Chief on the Deck Floor as they are trying to prepare some of the new DRONE FIGHTERS.

LT. MAX ARROWMAN (CONT'D) Chief! My main navigational deflector and secondary systems are malfunctioning again..

CHIEF FLIGHT ENGINEER JAMES MALONE I'll get right on it.

LT. MAX ARROWMAN
Chief were on the clock here..
Captain wants us running formations
and space side now!

CHIEF FLIGHT ENGINEER JAMES MALONE These new AUTONOMOUS NIAGARA CLASS ATTACK FIGHTERS have proved problematic at best Lt. We'll get the problems solved but we need to delay the trial runs until we can be sure all the secondary systems are operational.

LT. MAX ARROWMAN Never mind we'll take them up without them.

CHIEF FLIGHT ENGINEER JAMES MALONE No way.. Absolutely not.. One wrong move and you'll have no shields or emergency transporters to back you up.

Just then CAPTAIN NATHAN PHILLIPS walks towards the two

LT. MAX ARROWMAN Captain on Deck! (salutes)

CAPTAIN NATHAN PHILLIPS At Ease gentlemen.. How are things shaping up down here.

CHIEF FLIGHT ENGINEER JAMES MALONE Sir, these new automated attack fighters Starfleet sent us yesterday are giving us a ton of issues.

LT. MAX ARROWMAN
The Chief says we can't launch them yet.

CAPTAIN NATHAN PHILLIPS What's the problem exactly?

CHIEF FLIGHT ENGINEER JAMES MALONE
The power systems. The human
interface, remote guidance,
secondary systems and navigational
deflector are all giving us some
odd programming issues... There are
a list of other issues that need to
be addressed as well before I can
clear them for launch or even run
them through testing.

CAPTAIN NATHAN PHILLIPS (the captain looks over to the RUNABOUT LAUNCH AREA) What about the Runabouts?

CHIEF FLIGHT ENGINEER JAMES MALONE They are all working perfectly and cleared to take off but I thought you wanted drills of the autonomous systems?

CAPTAIN NATHAN PHILLIPS I did but we need to some training time in for the pilots before we leave for Romulus. Okay Lt. Take the runabouts out, we'll use them for the drills. Chief, Get those fighters working. Were going to need them.

LT. MAX ARROWMAN Aye Sir. (walk away)

CHIEF FLIGHT ENGINEER JAMES MALONE Are we expecting trouble, \sin ?

CAPTAIN NATHAN PHILLIPS Going into Romulan space during a potential civil war?.. I think trouble is an understatement

 $\label{eq:chief-flight-engineer} \mbox{Chief-flight-engineer James Malone} \mbox{ Aye sir.}$

CAPTAIN NATHAN PHILLIPS Oh and Chief?

CHIEF FLIGHT ENGINEER JAMES MALONE Yes sir

CAPTAIN NATHAN PHILLIPS Don't break our new toys (smiles)

CHIEF FLIGHT ENGINEER JAMES MALONE Yes sir.

INT. USS FALCON - COMBAT SECTION - MAIN SICKBAY 1 - DECK - DAY

The large medical area has several nurses and doctors readying supplies and engineers are working on sick bay equipment when the captain walks in.

CAPTAIN NATHAN PHILLIPS Doctor. How are things shaping up.

CHIEF MEDICAL OFFICER HAMID ABBUL Ah Captain. Yes Sickbay 1 is nearly ready. Command and Stealth Sickbays are loaded and staffed and Staff are also busy prepping the Trauma, ER and plasma burn units as well were busy training staff on Romulan physiology and getting inoculated.

CAPTAIN NATHAN PHILLIPS Inoculated?

CHIEF MEDICAL OFFICER HAMID ABBUL Yes there's currently a Romulan Flu virus outbreak on New Romulus that's somewhat more virulent towards humans. The entire crew will need an inoculation.

CAPTAIN NATHAN PHILLIPS Any issues with the new BIOBEDS?

CHIEF MEDICAL OFFICER HAMID ABBUL We had a few minor issues them but engineering sent a team. There working perfectly now...

Nathan rubs his temple a bit

CHIEF MEDICAL OFFICER HAMID ABBUL (CONT'D) Headache? Here.. This ANALGESIC HYPO should help. I've also added the inoculation in there as well.

(Doctor Abbul hyposprays the Captain)

CAPTAIN NATHAN PHILLIPS Thanks.. Got a lot more rounds to do.. Seems to be working quickly.

CHIEF MEDICAL OFFICER HAMID ABBUL Workplace Stress can kill just as bad as a phaser, it just takes longer. I don't know how many times I've told people that. How long has it been since you had a real vacation?

CAPTAIN NATHAN PHILLIPS Too long..

CHIEF MEDICAL OFFICER HAMID ABBUL After this mission is over maybe you should consider taking one?

CAPTAIN NATHAN PHILLIPS When the current Romulan threat is over doctor. I'll think about it.

CHIEF MEDICAL OFFICER HAMID ABBUL Everyone talks about Risa but my favorite destination is still Earth. Great food, locations, multiple climates and of course... it's home!

CAPTAIN NATHAN PHILLIPS Your Starfleet file says you grew up on Earth? Don't you consider that home?

CHIEF MEDICAL OFFICER HAMID ABBUL Yes.. Born and raised but Earths got a lot of great holiday spots too.. Captain.. Just a suggestion but why don't you take a couple hours and visit the holodeck? Were several hours from Romulus... I know a great restaurant serving Indian food in downtown Mumbai that the holodeck does a nice approximation of..

CAPTAIN NATHAN PHILLIPS
Thanks, I may take you up on that,
after my rounds. Thanks Doctor,
Keep me informed on this Romulan
virus front.

The Captain leaves sickbay, heads to the turbolift and gets in and doors close.

INT. MAIN ENGINEERING LEVEL 1 - COMBAT SECTION - DECK 15 - USS FALCON - DAY

Main Engineering is very busy with several engineers working to solve various calibrations and diagnosing power systems and other engineering work. Some of Utopia Planitia personnel are packing up getting ready to leave.

CHIEF ENGINEER COMMANDER VORIK Ah Captain, was just about to call you.

CAPTAIN NATHAN PHILLIPS What do you got for me Vorik?

CHIEF ENGINEER COMMANDER VORIK Starfleet really has neglected a few operating protocols on some of new security routines however the fine tuning of the power systems is moving along. What I wanted to show you was this.

CAPTAIN NATHAN PHILLIPS What am I looking at? Why is Lt. Vuum here?

CHIEF ENGINEER COMMANDER VORIK Sir I called Lt. Vuum here because we don't know exactly what we are dealing with. We suspect it to be of Romulan origin..

CAPTAIN NATHAN PHILLIPS Romulan's? What makes you say that? Also Where was it found exactly?

CHIEF ENGINEERING ASSISTANT LT. TALOUR We say Romulan because of the components. We analyzed the materials and found that the power source does in fact use a Romulan design. Our teams found it on a maintenance interface console, Combat Section Deck 18 Auxiliary control room. Normally that Control room is manned and secure at least by 2 people but We've had Engineering teams from Utopia Planitia all over the ship Today.

LT CMDR. BIKKIR VUUM Clearly there's been a security breach. I'll assist the Commander and well see what the Romulan's have planted.. (under Breath -Something in scum) CAPTAIN NATHAN PHILLIPS
Easy there Bikkir.. Lets focus on
getting answers.. Vorik.. I want
you to do a level 1 diagnostic and
anti-virus scan on all primary and
secondary systems.. If the
Romulan's have planted something, I
don't want to go to warp until we
figure out what that is.

CHIEF ENGINEER COMMANDER VORIK Aye Sir, a wise precaution.

CHIEF ENGINEERING ASSISTANT LT. TALOUR Are you going to tell him about the Tachyon emissions?

CAPTAIN NATHAN PHILLIPS Tachyons?

CHIEF ENGINEER COMMANDER VORIK We detected what we think were a weak tachyon signature in the Aux control room during our standard sensor scans. Nothing was conclusive however and we were not able to track down the source.

CAPTAIN NATHAN PHILLIPS
That's all we need! Time travelers
or inter-dimensional saboteurs..
It's definitely possible
Lieutenant, that our saboteur is
using some kind of new technology
to transport the device on-board,
in which case we may never track
them down.

The Captain taps his combadge

CAPTAIN NATHAN PHILLIPS (CONT'D) Captain to the bridge!

LT. WONG (O.S.)

Lt. Wong here sir

CAPTAIN NATHAN PHILLIPS
Run a Level 1 scan for Tachyon
emissions on Deck 18. See if
there's any residual trace. Then
run an external Sensor scan to see
if you can detect anything out of
the ordinary.

CAPTAIN NATHAN PHILLIPS (CONT'D)

Contact me when you have the results and send them to Engineering and Security as well.

LT. WONG (O.S.)

Aye Sir.

LT CMDR. BIKKIR VUUM I will contact UTOPIA PLANITIA SHIPYARD SECURITY about the breach. The saboteur may still be on the station.

CAPTAIN NATHAN PHILLIPS Okay. I also want you to check the new crew rosters see if you spot any anomalies. We've had a lot of new transfer in recently. If there is a connection we should find something. Well Gentlemen. Looks like this mission is getting a little bumpy before it even begins.. Lets hope we get to leave space dock.

The Captain exits engineering and heads to the Holodeck

EXT. SPACE - USS FALCON SPACEDOCK - SPACE (OPTICAL)

Shows images of the work bees finishing maintenance to the USS Falcon and leaving.

INT. MONTAGE OF DECKS - DAY (OPTICAL)

The camera starts at the lowest decks and seems to pass right through the ship slowing down showing officers and crewman working on various parts of the ship when the camera stops outside the holodeck doors finally.

CAPTAIN NATHAN PHILLIPS (O.S.)

Captains Log Supplemental:
Engineering is continuing to
analyze the device found in the
Auxiliary control room on Deck 18.
The threat of Romulan Sabotage
aboard the Falcon is distressing
before such an important mission.
To top it off, Tachyons.. time
travel technology or some sort of
new way of using them may be at
play here. Last thing I need is a
visit from Temporal Investigations
before Falcon is even launched.

CAPTAIN NATHAN PHILLIPS (O.S.)

I have too much on my plate. In any event, we are proceeding with the mission and everyone has a job to do.

INT. HOLODECK 4 - COMBAT SECTION - DECK 16 - DAY

Captain walks up to the holodeck door and taps the console

CAPTAIN NATHAN PHILLIPS Computer, what type of relaxation programs do you currently have?

COMPUTER VOICE
Inquiry, Do you wish to have the
Ship wide Concierge appear and
assist you on any future ship
requests regarding Holodeck

CAPTAIN NATHAN PHILLIPS

No.

functions?

COMPUTER VOICE

Acknowledged. There are over 4000 relaxation Holo-programs available with others able to be downloaded from Marketplace Epsilon. Please specify by location, climate, interior or exterior and activities you are looking for?

CAPTAIN NATHAN PHILLIPS
Ummm... Let's pick Los Angeles
early 21st century...umm... pick me
a Nice Sports car, driving along
the coast

COMPUTER VOICE Program complete enter when ready

The Captain enters the holodeck and sees a brand new TESLA ROADSTER with the glass top off. He's at a parking inlet on the coast and gets in the drivers seat.

CAPTAIN NATHAN PHILLIPS Ah.. Now that's what I'm talking about. Computer a little mood music..

The computers selects some good driving music and the Captain takes off behind the wheel down the California coast driving towards the beaches.

EXT. FIGHTER WING IN FORMATION - AROUND JUPITER - SPACE (OPTICAL)

The Fighter Squads take turns in formation and use the runabouts to do some maneuvers.

LT. MAX ARROWMAN
Alright Alpha Wing lets practice
torpedo runs at the enemy target.

ENSIGN #1
Sir we have no targets to shoot at.

LT. MAX ARROWMAN We will in a second.

ENSIGN #1

Sir?

LT. MAX ARROWMAN
Starfleet gave us a brand new
prototype to play with today. It's
called an Isomorphic holographic
training simulator. The holograms
actually become real hard targets
so we can use real weapons here.
Hit your target and it will contact
enough to explode. No more shooting
with holographic systems.

ENSIGN #1

So if we target our weapons at a specific location it will emulate the real thing.

IT. MAX ARROWMAN
I don't know all the details but
essentially yes. All I know is that
the matter energy generator
equipped on the exterior of our
Runabout has enough power for one
vessel to appear as though it were
real and solid.. At least on the
outside..

ENSIGN #2 (0.S.) So are we to treat this as a live fire exercise? Couldn't we just do this in the holodeck?

LT. MAX ARROWMAN
Yes and your right we could but the captain wants us to test out this generator in addition to training.

(MORE)

LT. MAX ARROWMAN (CONT'D)

It may come in handy. Activating Generator now.

ENSIGN #1

Sir! I'm detecting a Romulan warbird bearing 270 mark 5!

LT. MAX ARROWMAN

Wow. Check your sensors Ensign.. That's the Generator, Its working... You see the power curve. A real warbird would have 10 times that power but I could definitely see it fooling a few sensors for awhile. Okay Alpha wing, since we are generating that warbird the rest of you being practicing engaging the warbird. I want to see what this device can do!

The runabouts start practicing formations and attack patterns with phasers and photons to try to destroy the warbird. Physical hits from Phasers and photons interact with the shields on the actual warbird and the shields hold but are low.

INT. USS FALCON - HOLODECK 4 - COMBAT SECTION - DECK 16 - DAY

Captain Phillips is taking a sip of COLA and eating a SANDWICH near Venice Beach while sitting on the hood of the car and thinking while looking out over the beach and pier when suddenly Birdie Appears.

EC3H

Captain, glad to see you are relaxing!

CAPTAIN NATHAN PHILLIPS Birdie.. You know holodeck's are private time for officers right?

EC3H

Oh I'm sorry Captain.. Would you like to be alone?

CAPTAIN NATHAN PHILLIPS That's alright.. Your hear now..

EC3H

So Anything you want to talk about? The upcoming mission?

CAPTAIN NATHAN PHILLIPS Not in particular. Okay well there is this one thing.

EC3H

What's that?

CAPTAIN NATHAN PHILLIPS This SANDWICH is delicious!

EC3H

Glad your enjoying it..

CAPTAIN NATHAN PHILLIPS

(smiles)

EC3H

Captain I realize the Starfleet personnel are having a hard time adjusting to a holographic counsellor. In fact the whole experiment that Starfleet is doing with technology these days is all to help crews with long voyages. I sometimes often feel as if holograms are still not treated as equals even in light of recent changes. I mean the holographic rights cases last year should prove that sentient holographic systems have recognition.

CAPTAIN NATHAN PHILLIPS Birdie.. Your taking this way too far.. It's not about rights.. Its about comfort level.. And your right.. The crew is not accustomed to talking about feelings with holograms... including me. Being the captain means I should be setting a better example... You just have to give the rest of the crew some time to adjust.

EC3H

Well the emotional well being of the crew cared for is not only a good thing to have, its also my job. If I fail at that Starfleet may just terminate my program. We have some time now? Feel like setting that example?

EC3H (CONT'D)

(laughs cheekily) Tell me what's bothering you and I'll try to help! (fake smile on his face)

CAPTAIN NATHAN PHILLIPS ... Earlier in the turbolift when Admiral janeway was here.. I had a flashback.

EC3H

What kind of flashback?

CAPTAIN NATHAN PHILLIPS One from my childhood...when my parents were killed..

EC3H

That must still be quite painful for you after all these years..

CAPTAIN NATHAN PHILLIPS
It brought back a lot of the fear,
uncertainty and panic that I've
tried to deal with since then.

EC3H

I can imagine that this mission is having quite an affect on you..

CAPTAIN NATHAN PHILLIPS I almost feel like Starfleet has chosen the wrong Captain for this mission..

EC3H

Nathan.. Starfleet wouldn't have chosen you if they didn't think you could handle it, I mean you have had countless encounters with Romulan's in the last decade. Surely those experiences will help you through this mission.

CAPTAIN NATHAN PHILLIPS
I appreciate the confidence Birdie
but things are different now. The
Romulan's are even more aggressive
than ever.. The Clock has almost
turned back in time.. The Tal Shiar
are hell bent on the Federations
destruction and the Alpha quadrant
is poised for another potential
conflict.. All of that results in
people getting hurt..

CAPTAIN NATHAN PHILLIPS (CONT'D)

It's inevitable. During the Dominion War I was assigned to the USS Freedom. I was commander of that ship. That ship was part of the defense force at Chin'Toka when the Dominion took it back. Only 16 of us made off that ship alive. We lost a lot of good people.

EC3H

I'm sorry to hear that Captain..
But correct me if I'm wrong weren't
the Romulan's on our side at that
time?

CAPTAIN NATHAN PHILLIPS

Yes.

EC3H

Did you have any issues with them then?

CAPTAIN NATHAN PHILLIPS The Romulan's pretty much kept to themselves. The crews didn't mix much and the interaction that happened was tightly controlled. Starfleet was more worried about the Klingons and Romulan's in one place.

EC3H

No what I meant was.. Did you have an fear of the Romulan's for any reason even working with them at that time? I want you to think about what aspects of them that you fear most because that going to be the key with your therapy going forward.

CAPTAIN NATHAN PHILLIPS
I'll have to give it some thought..
I suppose when you think of it that
way.. Thanks Birdie you actually
made me feel a bit better!

All of a sudden the captains comm badge sounds.

CAPTAIN NATHAN PHILLIPS (CONT'D)

Go ahead

LT. CMDR. BIKKIR VUUM Captain, Admiral Black is beaming over. He wants to brief you.. He's arriving in Transporter Room 1

CAPTAIN NATHAN PHILLIPS Acknowledged. I'm on my way.. Birdie we'll have to take this up later.

The Captain cleans up his garbage and puts it into a garbage can and Birdie dematerializes.

CAPTAIN NATHAN PHILLIPS (CONT'D) Computer Exit and save location!.. Love that car!

Computer beeps and then the Exit doors appear and the captain walks out of the holodeck.

INT. USS FALCON - COMMAND SECTION - TRANSPORTER ROOM 1 - DECK 22 - DAY

Captain Phillips arrives through the doors just as the Admiral and company is materializing and Commander Durham is standing there as well.

CAPTAIN NATHAN PHILLIPS Admiral Black. I didn't expect you sir.

ADMIRAL BLACK

(shakes Nathan's hand)
Nathan! Great to see you. Starfleet
has asked me to tag along on this
mission.

(Motions his people off the transporter) My staff is going to need some quarters and you and I need to brief you, is there somewhere we can go?

The Admiral and guests step off the pad and out in the hallway

CAPTAIN NATHAN PHILLIPS Absolutely, Commander will you escort the Admirals staff to their quarters and also take them and show them the Diplomatic Quarters on Deck 20, they will have full computer access...

ADMIRAL BLACK

(interrupts) Actually I'd prefer if the staff was set up on the Stealth Sections Conference Room and had bridge access. I also need to speak to your Communications and liaison officer.

CAPTAIN NATHAN PHILLIPS (looks oddly at the Admiral) Any particular reason Admiral?

ADMIRAL BLACK

Let's get to the Command Bridge and I will tell you as much as I can in your ready room.

CAPTAIN NATHAN PHILLIPS Very Well.

INT. USS FALCON CAPTAIN'S READY ROOM - COMMAND SECTION - DECK 13

CAPTAIN NATHAN PHILLIPS Admiral.. Is Starfleet concerned about something I should be aware of?

ADMIRAL BLACK

Starfleet wants oversight on this mission.

CAPTAIN NATHAN PHILLIPS
I realize were expecting trouble
but the ship hasn't even left space
dock yet.

ADMIRAL BLACK

I realize this isn't the most traditional way to launch a brand new vessel class. All the fan fare will have to wait. The mission is has everyone worried.

CAPTAIN NATHAN PHILLIPS I've already been over most of this with Admiral Janeway.. If there's a specific concern

ADMIRAL BLACK Nathan.. Relax, I'm not here to take command.

(MORE)

ADMIRAL BLACK (CONT'D)
I'm simply here to assist and to
gather as much intel on the Romulan
Dealings as I can. I will stay out

of your hair..

CAPTAIN NATHAN PHILLIPS

Coffee?

ADMIRAL BLACK

No thanks. Stomach can't handle the stuff. Starfleet is sending two Galaxy Class Ships with us to Romulus. Starfleet wants a little backup in case things go sideways.

CAPTAIN NATHAN PHILLIPS Are you commanding the mission from there?

ADMIRAL BLACK

No, my flag will be on Falcon for the time being. Starfleet wants to make sure that Falcon doesn't fall into enemy hands.. Not that it will under your command Nathan however even though Falcon's not an NX class, she's still really new and dangerous tech, so starfleet wants me to come along on this one. You probably could also use my help too. Starfleet is also worried the new security systems installed recently for counter measures and those two large damned doomsday weapons sitting in your Armory don't fall into the wrong hands. They are not taking any chances first time out. You understand the climate were in here.. The Death of Ambassador Spock was too much for Starfleet..

CAPTAIN NATHAN PHILLIPS Yes I... sort of agree to most of that? Admiral... Why the staff? We have our own additional command staff?

ADMIRAL BLACK

They are here to assist me with some other business for Starfleet intelligence. It's a classified need to know situation at the moment.

CAPTAIN NATHAN PHILLIPS
My fleet liaison officer, Lt. Fang
can assist you with whatever you
need.

ADMIRAL BLACK
Yes.. I understand she's a Caitian?

CAPTAIN NATHAN PHILLIPS Yes, One of the few in Starfleet and one of the best cryptographic and linguistic officers in the fleet.

ADMIRAL BLACK I'm looking forward to working with her..

Just then the Ready room Door beeps

CAPTAIN NATHAN PHILLIPS

Enter!

Commander Vorik Enters

CAPTAIN NATHAN PHILLIPS (CONT'D) What is it Vorik?

CHIEF ENGINEER COMMANDER VORIK Sir we've completed our diagnostics and scanned every ship system.

CAPTAIN NATHAN PHILLIPS

And?

CHIEF ENGINEER COMMANDER VORIK
The Romulan's planted a Virus in
our main propulsion systems. The
virus was supposed to take effect
after we picked up the ambassador
from Romulus. Or so we think
anyways. The Engines would have
exploded. We've had to recover most
of the operating protocols and
systems from our protected
archives. Fortunately. Falcon
hasn't even really received any
updates to those system yet and the
virus did not infect any User data
areas..

ADMIRAL BLACK What is he talking about Nathan?

CAPTAIN NATHAN PHILLIPS
The Security and Engineering teams
discovered an unknown suspected
Romulan device planted in the
AUXILIARY CONTROL ROOM..

ADMIRAL BLACK What? You mean we have a saboteur onboard?

CAPTAIN NATHAN PHILLIPS Well its unclear Admiral. I did send a security alert to the Shipyard and were taking precautions..

ADMIRAL BLACK I will have a chat with your security officer as well. There may be some information I can provide that may assist.

CAPTAIN NATHAN PHILLIPS I see no issue with that.. I don't know what else you could provide though. You weren't on the Falcon during that period. Also, Residual Tachyon particles were present.

ADMIRAL BLACK
Tachyons? Hmmm. I know The
Romulan's have been experimenting
with newer tech but Tachyons are
tricky business.

CAPTAIN NATHAN PHILLIPS

ADMIRAL BLACK
Never mind.. This device do you still have it?

Sir?

CHIEF ENGINEER COMMANDER VORIK

ADMIRAL BLACK
I want it and all the data you have on it transferred to my team in the stealth section and also have that Lt. Liaison of yours have a look at it.

CAPTAIN NATHAN PHILLIPS
The device should be sent to
Starfleet intelligence shouldn't it
Admiral?

ADMIRAL BLACK
Yes it will be but first send it my
team. I want to have them examine
it.

CAPTAIN NATHAN PHILLIPS Thank you Vorik, is this going to delay our launch?

CHIEF ENGINEER COMMANDER VORIK Not at all. Were on schedule.

CAPTAIN NATHAN PHILLIPS Thank you, Dismissed Commander.

ADMIRAL BLACK
Well I better get back to my team
and liaison with your officer
before the mission briefing at 1600
hours.

CAPTAIN NATHAN PHILLIPS Yes.. Falcon is scheduled to depart the shipyards after the briefing. The Dock Administrator assures me their teams will be out of here shortly.

EXT. SPACE TRAINING AROUND JUPITER - SPACE

LT. MAX ARROWMAN Alright Teams well done, that's enough for today. Lets head back to the hanger.

ENSIGN #1
Sir were picking up a faint
neutrino energy source. Its moving.

LT. MAX ARROWMAN Can you get a fix?

ENSIGN #1 No its gone now.

LT. MAX ARROWMAN Tachyons... that doesn't seem naturally occurring.

ENSIGN #1

Neutrinos could be natural but they don't typical move. Could be a subspace anomaly?

LT. MAX ARROWMAN

Could also be a cloaked Romulan vessel. Let's scout the area a bit before returning to Falcon and report this back. Alpha team flyby and sensor sweep of the Jupiter orbit. Lets see if we can get a closer look before heading back to the Falcon.

The Team banks off and heads into the planetary and moon orbits of the gas giant.

INT. USS FALCON - MAIN CONFERENCE LOUNGE - DECK 20 - DAY

The senior officers start coming into the Main conference room and the captain and admiral are standing in front of a giant 3D display screen while the crew watches from the conference chairs.

CAPTAIN NATHAN PHILLIPS
Alright people, listen up Admiral
Black has joined us on this mission
and he's going to fill us all in on
what he can about the current
situation on Romulus. Admiral?

ADMIRAL BLACK

Thanks Nathan, I realize Captain Janeway has already briefed you on the general mission, I have a few more detailed points to quickly ad add and then I'll hand you back to Captain Phillips for tactical planning.

The Admiral changes the display from the mission briefing and Starfleet insignia to a display of the romulan system.

ADMIRAL BLACK (CONT'D) As you all know the super nova that destroyed the Romulan system was devastating and presumably took the life of Ambassador Spock..

(MORE)

ADMIRAL BLACK (CONT'D)

What you don't know is that Ambassador Spock's sacrifice turned a few heads in the Romulan government in the rest of the empire to the federations favor. Recent talks over subspace have prompted this mission to Romulus.

The Admiral expands his hands as if to gesture to the machine to zoom into the presentation and it displays a 3D representation of a prominent Romulan Tal Shiar leader

ADMIRAL BLACK (CONT'D) On the other hand, we have a few disturbing pieces of intelligence. The Tal Shiar has now split from the main Government, The Tal Shiar recently attacked several key Federation outposts along the neutral zone border. They are now considered a roque military organization. Romulan Tal Shiar vessels are now waging a campaign on their own to what end the Federation doesn't yet know. All we know is that they are massing resources and building ships and recruiting loyal Romulan soldiers in an attempt to possibly seize control of New Romulus and the new Romulan Republic.. The Federation can't let that happen. Falcon's role in the coming days and months and possibly years will be in the interests of establishing better relations with the Romulan new government, one of those goals is to find, undermine and ultimately eliminate the Tal Shiar.

The Admiral waves his hand to the next 3D Scene.

ADMIRAL BLACK (CONT'D)
Other intelligence suggests some
key Romulan Captains and Generals
have also split off from the main
government and have gone rogue or
in some cases as mercenary outfits.
This man General Atam Vreenak who's
son was the late Senator Vreenak
who's killing was the turning point
in the war against the Dominion..

The Captain gets completely uncomfortable at seeing this person's face and starts sweating and has a brief flashback of his parents death.

ADMIRAL BLACK (CONT'D) And there are others who we've yet to identify. The power vacuum is having a ripple effect. Starfleet's secondary mission is gather intelligence and then try to broker a peace or ceasefire and convince some or all of these rogue military that Starfleet isn't their target and that they should re-join with the Romulan republic. We don't expect this to be easy. We have to find them first. So far the message isn't reaching them.

CAPTAIN NATHAN PHILLIPS Admiral! Is this the same General Atam Vreenak That is responsible for the attack on Star base 247 about 50 years ago?

ADMIRAL BLACK

Yes..

CAPTAIN NATHAN PHILLIPS With all due respect Admiral, Starfleet can't trust this man. We also have Prime Directive issues here and to be direct, he murdered my parents!

The Bridge crews and senior officers are in shock at that revelation and the Captains emotional response towards the Admiral.

LT. M'MORA FANG

I'm sorry to hear about your family Captain. Admiral, the captain is right, we can't trust these people. Starfleet doesn't get involved with rogue outfits either. Murder is not exactly a great starting point to any relationship.

COMMANDER LESLIE DURHAM I'm sorry to hear as well. That is really awful sir, my condolences.

LT CMDR. BIKKIR VUUM
I agree terrible! On my world the
violence caused blood feuds that
lasted years! What Starfleet is
asking the Captain to do is beyond
comprehension! Captain you have my
sympathies. Starfleet needs to rethink this strategy as it puts
Falcon in harms way needlessly and
without proper support of the
fleet. We need to find these units
and eliminate them. They are
already attacking our outposts.

ADMIRAL BLACK

Everyone! This is a briefing not a debate! Starfleet and the Federation council have made their decision on this. You all will follow the orders as cited.

CAPTAIN NATHAN PHILLIPS I apologize for my outburst Everyone. The Admiral is correct as much I disagree with some elements, those are the orders and we must carry them out.

The crew starts discussing amongst themselves then the Captain leans over to the Admiral

CAPTAIN NATHAN PHILLIPS (CONT'D) What other secrets are you keeping from me today Admiral?

The Admiral continues his briefing

ADMIRAL BLACK

I will remind everyone that the Federation's primary goal here is to help the Romulan New Republic get on its feet and mold them to become a powerful ally. The Alpha quadrant and what it will end up looking like may very well be decided in the coming months and years. Starfleet is more concerned now then when the Dominion first invaded. That tells you the stakes of having a failed Romulan Empire.

(MORE)

ADMIRAL BLACK (CONT'D)

The last thing the Federation needs is more Terrorism and isolated rebels causing havoc for their own purposes, that violence will and has already spilled over. Admiral Janeway laid out your mission, I'll be laying out your long term and strategic planning. Falcon was built for this, you have all trained for this role and we will continue as planned.

The Crew isn't totally paying attention at this point and the Admiral notices.

ADMIRAL BLACK (CONT'D) Alright everyone, this part you need to pay attention to, Captain will you do the honors? Good luck and Godspeed everyone!

Motions to the screen to change the presentation to off and then the Admiral and his staff leaves the mission briefing room.

CAPTAIN NATHAN PHILLIPS
This is our maiden voyage and we know not what our journey will bring. The Falcon will keep us safe if we take care of her. Over the past number of months you all have shown great dedication to your duties. Now it's time to do what this ship was designed to do. Fact of the matter is, Starfleet IS putting us all in harms way. The name Romulan pretty much guarantees that.

The crew chuckles.

CAPTAIN NATHAN PHILLIPS (CONT'D) We all have a job to do and you all have been working hard up to this point but there is a lot more to do and were going to get it done. Let's get to work, everyone to departure stations, get ready to launch, Dismissed.

Most of the senior officers and crew exit the briefing room and head for the bridge or turbo lifts to the other bridge areas.

END OF ACT ONE

ACT TWO

INT. USS FALCON C&C BRIDGE - DECK 20 - DAY

The Main Bridge crew, officers and senior officers arrive on duty for the Bridge and relieve Delta shift.

CAPTAIN NATHAN PHILLIPS Mr. Wong, Ship Status report

LT. WONG

The last of the Engineering teams have left sir!

CAPTAIN NATHAN PHILLIPS Captain to Main Engineering, Vorik its 16:00. What's our status on that Problem we were having earlier?

The scene switches to Engineering where Everything looks in order as crew are working away.

CHIEF ENGINEER COMMANDER VORIK We've purged every system sir and power systems are now operating within recommended tolerances.

CAPTAIN NATHAN PHILLIPS Tactical..

LT. CMDR. BIKKIR VUUM Tactical and security reporting as ready Sir.

CAPTAIN NATHAN PHILLIPS Captain to Sickbay, Doctor what's your status.

CHIEF MEDICAL OFFICER HAMID ABBUL (O.S.)

Medical and Sickbays ready to go sir.

CAPTAIN NATHAN PHILLIPS
Ensign Alveraz, release docking
clamps, clear all moorings and Set
course for IO at Jupiter,
maneuvering thrusters only until we
clear the Yard's hanger

ENSIGN EDWARD ALVAREZ

Aye Sir

Shows the Falcon leaving the Shipyard completed (OPTICAL)

CAPTAIN NATHAN PHILLIPS Set speed to Half Impulse and rendezvous with our squadrons

EXT. SPACE AROUND JUPITER - SPACE (OPTICAL)

The Falcon arrives around Jupiter at half impulse as the fighter squadron approaches and Falcon launches its remote controlled Fighters.

INT. USS FALCON C&C BRIDGE - DECK 20 - DAY

The Captain and Bridge crew are getting ready to test out the manned and autonomous Fighter control systems in an engagement with the returning Runabout fighter wings

CAPTAIN NATHAN PHILLIPS Captain to Lt. Arrowman, were here! Is your team ready?

LT. MAX ARROWMAN (O.S.) Good to See Falcon's left the nest sir! Team is standing by for mock battle simulation

CAPTAIN NATHAN PHILLIPS Alright lets see what these new Fighters can do, Lt. Vuum, let's fire them up!

LT. CMDR. BIKKIR VUUM
Yes sir! Engaging Autonomous
Tactical simulation Alpha. Engage
weapon safeties. Ensign Vickers and
Beta squad, were going to try fully
autonomous mode with standby neural
link modes.. Ready and Engage.

The new fighters initialize and start making formations against the Alpha team, initial maneuvering and tactics are incredible compared to the Runabouts. (OPTICAL)

LT. WONG

Sir i'm getting a strange reading from the lead Autonomous fighter.

LT. CMDR. BIKKIR VUUM Confirmed. It appears there a logic failure in the primary AI preprocessor. The link between each vessel is shutting down. I can't compensate.

CAPTAIN NATHAN PHILLIPS Phillips to Lt. Arrowmen, we got a slight problem with the fighters autonomous computers. Standby.

LT. MAX ARROWMAN (O.S.) Acknowledged.

LT. CMDR. BIKKIR VUUM Wait systems are coming back online. Oh no.. Weapons are fully charged!

CAPTAIN NATHAN PHILLIPS RED ALERT, Shields up. Phillips to Arrowmen, get your people to the hangers now, we've got a problem.

ENSIGN EDWARD ALVAREZ Sir! The fighters are changing course and heading towards us!

CAPTAIN NATHAN PHILLIPS What the hell happened, Phillips to Vorik, we got rogue Alpha fighters closing on our position, is there anything you do from there?

CHIEF ENGINEER COMMANDER VORIK Sir, I'm analyzing the signals coming back over the neural link we have, its been altered. I don't know by who but its got a Romulan codebase to it.

CAPTAIN NATHAN PHILLIPS The Romulan Virus!

CHIEF ENGINEER COMMANDER VORIK Of course! It must have gotten downloaded into the Fighters systems while we were updating our systems. Sorry Captain we missed it. CAPTAIN NATHAN PHILLIPS Worry about blame later, how do we fix it? In about 5 seconds, I'm going to have to destroy them.

CHIEF ENGINEER COMMANDER VORIK Has the lead ships shields been activated.

CAPTAIN NATHAN PHILLIPS

Bikkir?

LT. CMDR. BIKKIR VUUM Yes. However I may be able to bypass it, I think I know where your going with this.

COMMANDER LESLIE DURHAM Care to fill the rest of us in?

LT. CMDR. BIKKIR VUUM
If we can hit the lead ship with a
resonance pulse along the neural
link we should be able to trigger
an overload in the main processor.
That should by us a few seconds
where the shields will be
alternating. Then we can beam
someone into the cockpit and take a
phaser to the main computer core.

COMMANDER LESLIE DURHAM Alright, it'll be me.

CAPTAIN NATHAN PHILLIPS What good will hitting the computer core do?

LT. CMDR. BIKKIR VUUM
The system will kick in the autoregeneration units and the core
will re-initialize and load the
default operating system which
shouldn't have the romulan virus
onboard.

CAPTAIN NATHAN PHILLIPS Alright lets do it but Commander, be careful. I'd hate to loose you before our first mission!

COMMANDER LESLIE DURHAM
Oh I think you are going to have to
put up with me a while longer yet
sir. Site to site transport,
energize

LT. CMDR. BIKKIR VUUM Feedback initiated.

LT. WONG Beaming the commander to the fighter... Now.

INT. LEAD AUTONOMOUS ALPHA FIGHTER - SPACE

The commander hurries to get to the cockpit but the fighter's virus detects that she's onboard and initiates evasive maneuvers and she gets knocked to the ground.

COMMANDER LESLIE DURHAM Going to play rough are you?

The commander finally makes it to the cockpit and locates the master computer console and unlocks the primary core hatch at the rear of the fighter in the floor. She takes her phaser and sets it to level 7, damaged but not disintegrated and the fighters power shuts down.

COMMANDER LESLIE DURHAM (CONT'D) Durham to Falcon, I've shut the fighter down. Have the rest shutdown as well?

Just then one of the fighters jumps to Warp but all the others power down (OPTICAL)

CAPTAIN NATHAN PHILLIPS
Commander, the lead fighter and all
of the others have shut down except
one. Were going to have to after
it. Initialize the auto
regeneration process so we can dock
the fighters.

The commander goes to a second console with a special command key sequence and a computer voice warns her that doing so will restore all system software.

COMMANDER LESLIE DURHAM

Reinitialize Alpha fighter operations security clearance, Durham, Omega 0,9,Charlie,Delta,8,7,Tango, Execute.

The system starts regenerating the computer core and all damaged systems and starts reloading the operating system and reconnects to Falcon's controllers.

COMMANDER LESLIE DURHAM (CONT'D)

Durham to Falcon, I'm done here. Energize.

She beams back to the C&C Bridge

EXT. UTOPIA PLANITIA SHIPYARDS - SPACE (OPTICAL)

The Shipyards in the distance then all of a sudden the rogue fighter approaches the Shipyards and opens fire. Several work bees and crews scramble as the assault starts as Falcon Warps in right behind the fighter.

INT. USS FALCON C&C BRIDGE - DECK 20 - DAY

CAPTAIN NATHAN PHILLIPS

Fire.

LT CMDR. BIKKIR VUUM Firing Phasers and torpedo's!

The Fighter avoids some of the fire but takes 2 direct hits and keeps going

CAPTAIN NATHAN PHILLIPS

Quantum torpedoes! Fire!

LT. CMDR. BIKKIR VUUM

Firing!

The fighter takes direct hit and is destroyed.

CAPTAIN NATHAN PHILLIPS

Phillips to Utopia Planitia control, is everyone okay down there?

UTOPIA PLANITIA SECURITY

Captain, thanks for the assistance..

(MORE)

UTOPIA PLANITIA SECURITY (CONT'D)

Our weapons were not a match for those new fighters of yours, upgrades are not online yet down here. Workmen report they had to scramble a bit but everyone's okay. The Odyssey took a bit of damage but no casualties.

CAPTAIN NATHAN PHILLIPS Glad to hear it, I advise checking your own systems for the Romulan virus in case it migrated, my engineer can assist if necessary by subspace. Falcon Out. Stand down from Red Alert.

LT. CMDR. BIKKIR VUUM Sir were getting a communication from McKinley Station, its Admiral Janeway.

CAPTAIN NATHAN PHILLIPS Put her on screen

Lt. Bikkir puts The admiral on the main view screen

CAPTAIN NATHAN PHILLIPS (CONT'D)

Admiral?

ADMIRAL KATHRYN JANEWAY Just wanted to see how things were going. I trust not too badly.

CAPTAIN NATHAN PHILLIPS Our adversaries are just getting friendly but were coping.

ADMIRAL KATHRYN JANEWAY Good luck to all of you on your mission, and Nathan?
(smirks)
Try to relax. Janeway out.

The Captain goes to his chair and hits the ship-wide button.

CAPTAIN NATHAN PHILLIPS
This is the Captain! It appears the
Renegade Romulan factions really
don't want us to start our mission.
Glad we can disappoint them.
Prepare for Warp Speed, see you all
in Romulan Space. Captain out.

The captain clicks a button on his command chair to turn off ship wide communications.

CAPTAIN NATHAN PHILLIPS (CONT'D)

Ensign, Set course for the Romulan Neutral Zone border then on to New Romulus, Warp 8.

ENSIGN EDWARD ALVAREZ

Course laid in.

CAPTAIN NATHAN PHILLIPS

Engage.

EXT. USS FALCON - SPACE (OPTICAL)

The Warp Engines Engage and Falcon goes to warp

EXT. USS FALCON - SPACE (OPTICAL)

Falcon drops out of warp and enters formation with two GALAXY CLASS vessels and they continue on to the middle of the neutral zone.

INT. USS FALCON BRIDGE - DAY

Falcon and the galaxies slow to impulse just as two Romulan D'Deridex warbirds de-cloak in front of them

CAPTAIN NATHAN PHILLIPS Helm full stop. Go to Yellow alert.

COMMANDER LESLIE DURHAM Admiral Black to the Bridge.

CAPTAIN NATHAN PHILLIPS Open a channel to the lead Romulan vessel.

Admiral Black comes to the bridge rather quickly.

LT. CMDR. BIKKIR VUUM Channel open.

CAPTAIN NATHAN PHILLIPS This is Captain Nathan Phillips of the Federation Starship Falcon. We are here at the request of the new Romulan Government.

The Screen changes and a Romulan commander appears.

ROMULAN COMMANDER SARTEK This is commander Sartek of the Imperial. Err. The new Romulan Militia. We are here to escort you through romulan space to meet with the Ambassador. Ah.. Admiral Black, good to see you again.

ADMIRAL BLACK Good to see you as well.

CAPTAIN NATHAN PHILLIPS Friend of yours?

The Admiral ignores the captain momentarily.

ADMIRAL BLACK Commander, Captain and Galaxy escorts. Set course for the remains of the Romulan system Warp 8.

CAPTAIN NATHAN PHILLIPS
Lt. Bikkir, signal the Galaxy
Captains.. Helm, proceed with the
order and engage. Admiral a word in
my ready room?

ADMIRAL BLACK

Of course.

CAPTAIN NATHAN PHILLIPS Commander you have the bridge

COMMANDER LESLIE DURHAM

Aye sir

INT. USS FALCON CAPTAIN'S MAIN READY ROOM - COMMAND SECTION DECK 20 - DAY

The Admiral and Captain walk into the large ready room.

CAPTAIN NATHAN PHILLIPS Admiral, I need to clarify a few things here.

ADMIRAL BLACK

Okay.

CAPTAIN NATHAN PHILLIPS First, Can you explain how a Romulan Captain knows you so well?

ADMIRAL BLACK

Oh.. ha-ha, Commander Sartek and I.. Let's just say we've had a few dealings over the years in the romulan neutral zone. Since then we've established a dialogue.

CAPTAIN NATHAN PHILLIPS That was when you were commanding the EXETER right?

ADMIRAL BLACK Yes, before it was destroyed at Wolf 359. Those were dark days.

CAPTAIN NATHAN PHILLIPS Indeed. Admiral. I want to know what your planning here.

ADMIRAL BLACK What do you mean?

CAPTAIN NATHAN PHILLIPS What can you tell me about what is really going on in Romulan space and what our mission is. You can't expect me to believe that Star fleet would send the newest starship and crew with a couple escorts for a milk run.

ADMIRAL BLACK Starfleet has the utmost confidence in your ability here Nathan and your crew.

CAPTAIN NATHAN PHILLIPS With all due respect Admiral, if they did they wouldn't have sent you with me.

ADMIRAL BLACK
I see where this is going.. Nathan,
I'm here in a diplomatic and
coordination capacity, I have a few
items I will be taking care of but
its a need to know. You are in
command of Falcon. Admiral Janeway
explained this to you did she not?

CAPTAIN NATHAN PHILLIPS Yes I know that Admiral but we've known each other too long! And I know Starfleet!

(MORE)

CAPTAIN NATHAN PHILLIPS (CONT'D)

When it comes to the Romulan's, there's always a hidden agenda. What is Starfleet really concerned about and what are they planning?

ADMIRAL BLACK

I can't tell you much. I will say this. The mission you are on is only the start of something much larger and more important than just Starfleet, New Romulus, ourselves or a few ships. Have faith. Now If there's nothing else. I have to get back to the Stealth Bridge.

CAPTAIN NATHAN PHILLIPS I don't like secrets..

ADMIRAL BLACK
Try being an Admiral in Starfleet.

INT. USS FALCON COMMAND BRIDGE - DECK 20 - DAY

The crew looks alert and work is being conducted as normal.

ENSIGN EDWARD ALVAREZ Approaching Hobus Star system sirs.

ADMIRAL BLACK

Helm signal the fleet to drop out of warp at the edge of the Romulus and Remus debris fields.

ENSIGN EDWARD ALVAREZ

Cap?

CAPTAIN NATHAN PHILLIPS Carry out the Admirals orders ensign. What are we doing here Admiral?

The Admiral gets up and walks towards the turbolift.

ADMIRAL BLACK

I'm going to take my leave of you for a while Nathan on an important mission. I'm taking the Stealth section. I will rendezvous with you at New Romulus shortly.

CAPTAIN NATHAN PHILLIPS

Admiral!

ADMIRAL BLACK

Protest noted. I hereby take command of the stealth section for fleet security reasons.

COMMANDER LESLIE DURHAM Captain, Admiral with all do respect, Falcon is more vulnerable without the stealth section. If we are to go into Romulan space...

CAPTAIN NATHAN PHILLIPS
Oh I agree Commander. The Admiral
is well aware without the stealth
section Falcon has reduced power
capability as well as tactical
options. It seems you do have more
secrets after all Admiral. I must
formally protest this action. Lt.
Vuum please enter into the Log that
this action by Admiral Black is
being taken with my strict
objection. Get ready for Stealth
section separation.

The Admiral takes the turbolift to the Stealth section bridge.

CAPTAIN NATHAN PHILLIPS
I'm not sure but whatever the
Admiral is planning is clearly not
for Falcon's benefit. We need to be
ready for anything.

LT. WONG
Sir, Stealth section disengaging

The ship has a slight shake as the stealth section deattaches.

EXT. USS FALCON - HOBUS STAR SYSTEM ROMULAN DEBRID FIELD - SPACE (OPTICAL)

The Stealth section detaches from the Combat Sections hull and starts to head into the Romulan debris field. One of the Romulan Vessels joins the stealth section and escorts them.

INT. USS FALCON BRIDGE - COMMAND SECTION - DECK 20 - DAY

CAPTAIN NATHAN PHILLIPS Lt. Wong, see if you can scan the debris system. I want to see what the Admiral is up to. See if you can find anything out of the ordinary. I don't like being left in the dark.

LT. WONG

Scanning. Sir i'm detecting a faint energy reading. Were too far to away to determine the source, but the signature appears to match a warp signature

COMMANDER LESLIE DURHAM A warp signature. Who is the Admiral Meeting with?

CAPTAIN NATHAN PHILLIPS Your guess is as good as mine...

LT. CMDR. BIKKIR VUUM Sir. We could try to go after the Admiral.

CAPTAIN NATHAN PHILLIPS
There's not much we can do with our
Escorts overlooking our shoulders.
Did you send a message to the other
captains Bikkir?

LT CMDR. BIKKIR VUUM Captain Ramses and Captain Pine are both in the dark or they simply aren't saying much about the Admiral. Did you want me to send Starfleet a message.

CAPTAIN NATHAN PHILLIPS
No.. We are in Romulan space. Rebel
factions could be listening. We
don't want to spook our Romulan
friends here either. Were going to
continue the mission.

The Romulan ship signals Falcon for an update.

LT. CMDR. BIKKIR VUUM Incoming transmission from the remaining Romulan vessel sir.. (MORE)

LT. CMDR. BIKKIR VUUM (CONT'D) They are asking why we have separated and when can we can get underway again.

Bikkir checks his console

LT. CMDR. BIKKIR VUUM (CONT'D) They have now canceled their request for an update. Looks like some comm traffic between the romulan vessels.. They have changed their query to ask when will be getting under way again.

CAPTAIN NATHAN PHILLIPS Bikkir, stay at Yellow alert and signal the Romulan's were getting under way now.. Lay in a course for New Romulus, Warp 8. Looks like were going without the Admiral.

EXT. USS FALCON AND ESCORTS - HOBUS STAR SYSTEM ROMULAN DEBRIS FIELD - SPACE (OPTICAL)

The Falcon and escorts warp to New Romulus along with one of the Warbirds.

INT. NEW ROMULUS SENATE - DAY

The senate chambers are full and there is a lot of conversation going on as large explosions start to go off outside getting stronger and stronger. The defense minister rushes in.

ROMULAN ACTING PRAETOR My fellow senators, a temporary alliance with Starfleet is in our peoples best interest for survival. With old Romulus gone, We cannot continue to build a society in the old ways. We must..

ROMULAN DEFENSE GENERAL My Apologies to the council but we must evacuate the senate to a more secure location

ROMULAN ACTING PRAETOR What's happening General?

ROMULAN DEFENSE GENERAL The Rebels are staging an attack on the city. We need to get the council and senators to the underground facility.

ROMULAN ACTING PRAETOR What's the status of our defense forces?

ROMULAN DEFENSE GENERAL Reinforcements are on the way but the rebels have cut off the city and have us surrounded.

ROMULAN ACTING PRAETOR We need to get the Ambassador and our exchange officer to the Starfleet vessel when it arrives, will you see to that?

ROMULAN DEFENSE GENERAL Yes sir. I know a place they can hide until they arrive.

ROMULAN ACTING PRAETOR Everyone, the senate is being evacuated, follow your emergency plans and relocate to the bunker.

EXT. USS FALCON - NEW ROMULUS ORBIT - SPACE (OPTICAL)

Falcon and escorts arrive in orbit around new Romulus.

CAPTAIN NATHAN PHILLIPS All scans.. Hail the surface

LT CMDR. BIKKIR VUUM Sir! A number of vessels are in orbit with several energy distortions further out.. We are also receiving a planetary defensive emergency signal but no response to our hail.

COMMANDER LESLIE DURHAM Something's wrong! I don't like it.

CAPTAIN NATHAN PHILLIPS Agreed, Leslie. Take your team to the Combat Section and get ready.

Commander Leslie Durham gets up and on her way to the turbo lift on her way to the combat section.

COMMANDER LESLIE DURHAM Combat Section Bridge crew report for duty.

She leaves the bridge.

CAPTAIN NATHAN PHILLIPS This is Damn odd. Red Alert..

LT. CMDR. BIKKIR VUUM Wait a minute! We are getting a signal from the surface.

CAPTAIN NATHAN PHILLIPS On screen

MISC ROMULAN COMMANDER Captain, I apologize for the delay. We've been testing our new emergency systems and i'm afraid they couldn't be shut off. You and party are clear to beam down now..

CAPTAIN NATHAN PHILLIPS
I appreciate the invitation but
those are not my orders commander.
I'd like to speak to the Ambassador

MISC ROMULAN COMMANDER
The Ambassador is indisposed at the
moment. If you and your team would
beam down I'm sure he will be with
you in a minute.

LT. CMDR. BIKKIR VUUM

Sir!

CAPTAIN NATHAN PHILLIPS Mute.. What is it?

LT. CMDR. BIKKIR VUUM I am detecting weapons fire on the planet. It appears there are several romulan life signs inside the capital. Orbit scans showing groups of people firing at each other.

CAPTAIN NATHAN PHILLIPS Close the channel. Can you scan for the emergency diplomatic transponder?

LT. CMDR. BIKKIR VUUM Scanning. No. There's a dampening field surrounding the city. I'm not even getting the normal civilian travel updates. Sir, lots of comm traffic between the Romulan ships.

CAPTAIN NATHAN PHILLIPS This doesn't look promising..

Just then a garbled transmission comes in

ROMULAN AMBASSADOR
USS Falcon, this is Ambassador
Vorlek and party, please beam us
aboard we are outside the city, We
need medical attention..
Authentication code.. FalconCharlie-259-Delta.

CAPTAIN NATHAN PHILLIPS Transporter room, Beam the Ambassador and party up.

TRANSPORTER CHIEF (O.S.) We got the Ambassador and party sir, there being transferred to sickbay.

LT. CMDR. BIKKIR VUUM Captain! Our romulan Escort is moving off and several vessels have de-cloaked. A new Romulan Fleet is approaching the system.

A romulan fleet of ships moving towards New Romulus

ROMULAN GENERAL VRENAK (O.C.) Attention New Romulan Government.. I am Admiral Vreenak, leader of Imperial Romulan Star Command and whom some of you are calling the Raptors Claw Rebels. Today we have seized New Romulus in order to restore power to the romulan people and to reunify our people under a strong unified wing.

(MORE)

ROMULAN GENERAL VRENAK (O.C.)

Fellow Romulan commanders, join with us or lay down your arms and reject the Federation and the weak minds of some of our brothers at all costs. Destroy the USS Falcon!

CAPTAIN NATHAN PHILLIPS My God... He's still alive.. Captain to all Hands! Battle stations!

END OF ACT TWO

ACT THREE

INT. USS FALCON - COMMAND SECTION - BRIDGE - DECK 20 - DAY

Several Romulan Vessels start to open fire on the Galaxy escorts and the Falcon.

CAPTAIN NATHAN PHILLIPS Signal the Galaxy escorts to follow us and get us out of here.

LT. WONG

Detecting a Large energy build up Sir!

CAPTAIN NATHAN PHILLIPS Full impulse, Evasive maneuvers!

The Falcon manages to evade several large explosions but the Galaxy escort take heavy damage.

LT. CMDR. BIKKIR VUUM Sir Galaxy Escorts have taken heavy damage and are disabled. Mines! The Romulan's have stealth mined the system, we need to leave now.

CAPTAIN NATHAN PHILLIPS
This must have been their plan all
along. Emergency transporters! Helm
get us out of here as soon as you
have them. Bikkir launch mine
counter measures.

The Ships anti-mine countermeasures fire and take out several cloaked mines.

ENSIGN EDWARD ALVAREZ Sir! What about the other ships?

CAPTAIN NATHAN PHILLIPS They aren't the targets. We can't let them get their hands on this vessel or the ambassador.

LT. WONG

Sir Emergency Transporters are now offline and we took some damage when the shields went down.

CAPTAIN NATHAN PHILLIPS How many made it?

LT. WONG

About 1748 sir. 300 unaccounted for.

The Ship takes multiple hits but is returning fire but makes it into warp with several romulan warships in pursuit. There are also several vessels who do not pursue and simply stand down.

CAPTAIN NATHAN PHILLIPS Lt. Fang signal crisis teams to get those people situated.

LT. M'MORA FANG Already on it sir. Medical reports crew are being moved into Guest and Ambassadorial quarters on Decks 14, 17 & 22 and were doubling up in some officers quarters.

CAPTAIN NATHAN PHILLIPS Captain to Doctor what's your status?

INT. USS FALCON - COMMAND MEDICAL BAY 1 - DECK 23 - DAY

Several doctors and nurses are filling Bio-beds in a very large medical facility while working to stabilize patients and performing triage.

CHIEF MEDICAL OFFICER HAMID ABBUL We are a little busy right now Captain, suffice to say we are handling it but currently 500 injured and 100 of them didn't survive their injuries.. I'll keep you posted, Doctor out.

INT. USS FALCON - COMMAND SECTION - BRIDGE - DECK 20 - DAY

CAPTAIN NATHAN PHILLIPS Were not going to be able to outrun the Romulan Rebels all the way to the border. Helm set course for the Hobus Romulan Debris Field, maximum warp.

The Ship warps into the Debris zone with rather large asteroids, dust and gas all around with Romulan warships in pursuit.

CAPTAIN NATHAN PHILLIPS (CONT'D) We need to find a place to lay low for a bit.

ENSIGN EDWARD ALVAREZ Sir there's a large asteroid patch about 50,000km away, I think I can fit Falcon between them.

LT. WONG

I see it. There should be enough diamagnetic ore in those asteroids and some ionized particulate to shield us from their sensors, at least for a while.

CAPTAIN NATHAN PHILLIPS
Set course Ensign. M'Mora, get down
to sickbay and see to the
ambassador and his staff's needs.

LT. M'MORA FANG

Yes sir.

CAPTAIN NATHAN PHILLIPS I'll join you when I can.

M'Mora fang leaves the bridge.

LT CMDR. BIKKIR VUUM
3 Romulan Vessels entering the
system sir but they don't appear to
have found us yet.

CAPTAIN NATHAN PHILLIPS Phillips to all senior pilots and staff. I think its time for a strategy session meet me in the Command conference room.

The Senior Officers and bridge crew all get up and go to the Command conference lounge.

INT. USS FALCON - MAIN CONFERENCE LOUNGE - DECK 20

The Staff is all situated in the conference lounge and anxiously awaiting the briefing as the captain starts his discussion.

CAPTAIN NATHAN PHILLIPS
We knew going into this mission
there were going to be some hiccups
but now we are here, hiding in the
old romulan star system debris
against overwhelming odds.
Starfleet is too far away to send
reinforcements and worse yet,
Falcon isn't even at full power
thanks to Admiral Blacks special
mission. We will get through this
but I want some suggestions, that's
why I've called this meeting,
Commander?

COMMANDER LESLIE DURHAM Everyone we realize this is not the most ideal first mission however we do have a few tactical options. Bikkir has a couple good plans.. They are risky but I think we can get through this in one piece. Delta Shift, you had some thoughts as well?

LT. COMMANDER BRICE Captain what if we simply set up a trap for the Romulan's using our mines and finish them off with our drone assault system?

LT. CMDR. BIKKIR VUUM The problem Commander is that the minute we engage the Romulan's they will know where we are.. Falcon's Combat section is fine but as you know the Command section has less options when its separated. Mines are a good option but we don't have time to deploy them effectively and I don't the Romulan's will sit around and let us deploy them, its only a matter of time before the Romulan's find us. We're out numbered and outgunned and our shield strength and other systems aren't as strong as it usually is without the Stealth section. What we need is a diversion.

CHIEF ENGINEER COMMANDER VORIK
A diversion would seem to be in
order but a diversion of what kind?

(MORE)

CHIEF ENGINEER COMMANDER VORIK The Romulan's have pretty sophisticated sensors.

LT. MAX ARROWMAN
We could launch the alpha fighters
to engage and then draw the
Romulan's away from Falcon, then
attack them from all sides. The
Drone system could defend the two
sections..

LT CMDR. BIKKIR VUUM
That could work but the problem you are forgetting about is that the romulan fighters and the numbers game still isn't in our favor, if they attack falcon with fighters they could overwhelm our drone defenses pretty rapidly..

CAPTAIN NATHAN PHILLIPS Alright. What we need is a change of scenery. Change the battle to our favour. Ensign Alveraz. That newly formed nebula on the way to Romulus how far is that from our current position?

ENSIGN EDWARD ALVAREZ
It's part of the surrounding system
sir, I'd venture about under a
light year to reach the densest
part.

LT. WONG

Sir, keep in mind, there are several radioactive particles and going in there will cause sensor echo's for us as well as the Romulan's. There are also plasma and highly charged ionic storms present. We'd be flying blind

CAPTAIN NATHAN PHILLIPS
I'm counting on it. Max, Remember
Simulation Beta Two Gamma? Were
going to need your team for that
diversion I'll have Bikkir send you
the mission details once Falcon is
in position. I will say this.. You
are a great crew.. You are smart,
daring and well trained.

(MORE)

CAPTAIN NATHAN PHILLIPS (CONT'D)

We will get through this crisis and many more, just think of it as more simulator practice.

Just then The EC3H materializes

EC3H

Red Alert, Romulan warbirds attacking, whatever you are going to do you'd better do it fast Captain!

CAPTAIN NATHAN PHILLIPS All hands to Battle stations! Helm, evasive maneuvers! Commander, get your team to Combat section and prepare to disengage, it looks like they found us a bit early.

INT. USS FALCON BRIDGE - COMMAND SECTION - DECK 20

3 Romulan warbirds are attacking The Falcon and its taking some hits to its shields but some shots are hitting the surrounding asteroids as well.

CAPTAIN NATHAN PHILLIPS Ensign move us out of the Asteroids and deeper into the system!

ENSIGN EDWARD ALVAREZ Aye, 1/2 impulse, clearing the field in 3, 2, 1..

CAPTAIN NATHAN PHILLIPS Commander, Time to shine! Disengage! Condition Black, launch fighters!

INT. USS FALCON - MAIN FIGHTER BAY - BAY 1

The fighter launch bay is gearing up to launch the new alpha fighters but is having an issue with the command and control AI system.

CHIEF FLIGHT ENGINEER JAMES MALONE

Dammit!

LT. MAX ARROWMAN

What is it James?

CHIEF FLIGHT ENGINEER JAMES MALONE Flight to Captain.. No go on the alpha's...

CAPTAIN NATHAN PHILLIPS (O.S.) What's the problem now? Never mind. There's no time to mess around, you need to get those fighters up anyway you can.

CHIEF FLIGHT ENGINEER JAMES MALONE Aye Sir!

Just then Birdie materializes.

EC3H

Chief! May I be of assistance?

CHIEF FLIGHT ENGINEER JAMES MALONE I don't have time for talking right now Birdie..

EC3H

I just wanted to put forward that I can pilot the fighters. All of them!

The Chief stops for a sec..

CHIEF FLIGHT ENGINEER JAMES MALONE Is there anything you can't do? Okay I'll handle pre-flight for you, launching!

INT. USS FALCON BRIDGE - COMMAND SECTION - DECK 20

The crew is taking hits and some consoles are exploding on the bridge

LT CMDR. BIKKIR VUUM Fighters have been launched sir!

EXT. USS FALCON IN SPACE - SPACE

Falcon's fighters and the drone weapon is deployed. One of the attacking Romulan warbirds is heavily damaged in the assault. INT. USS FALCON BRIDGE - COMMAND SECTION - DECK 20

The bridge crew is happy to see the Romulan's taking some damage

CAPTAIN NATHAN PHILLIPS Finally something going our way..

LT CMDR. BIKKIR VUUM 5 more enemy ships just entered the system sir.

CAPTAIN NATHAN PHILLIPS Number One, can you handle the other Romulan vessels, we got 5 more on the way. We need to move quickly.

Falcon sections work together and destroy 1 Romulan warbird but the Second one hits Falcon with an impressive blow to the Combat section.

INT. USS FALCON - COMBAT SECTION - BRIDGE - DECK 13 - DAY

A couple consoles explode on the bridge and the crew momentarily looses their balance but the ship is still functional

COMMANDER LESLIE DURHAM Engineering give me a status report!

CHIEF ENGINEERING ASSISTANT LT. TALOUR Ma'am, we've take a direct hit to the primary power couplings and we have a minor coolant leak in the deuterium system! Warp power still available but until I seal that leak I don't recommend going to warp yet!

COMMANDER LESLIE DURHAM Tactical! What's our status?

LT. FLETCHER
All weapon systems fully
operational, drone fleet is now
regenerating and launching shortly.

The Last romulan vessel targets Falcon's command section and starts attacking it.

COMMANDER LESLIE DURHAM Concentrate fire on that last Romulan Vessel and put us between them and the Command section.

INT. USS FALCON COMMAND BRIDGE - DECK 20 - DAY

The Falcon Command section take a couple direct hits. The alpha fighters and the Combat section intercept the Romulan vessel and attack it and the vessel is destroyed. A 4th newer heavily armored warbird de-cloaks.

CAPTAIN NATHAN PHILLIPS Well done everyone. Phillips to Durham.. Get everyone back..

LT CMDR. BIKKIR VUUM Sir, romulan warbird de-cloaking and firing on the Combat section!

EXT. USS FALCON - COMBAT SECTION - SPACE

The Romulan heavy cruiser attacks with a full volley on the Combat section and does significant damage.

INT. USS FALCON - COMBAT SECTION - BRIDGE - DECK 13

The bridge has some plasma conduits and oxygen lines explode and Leslie and others are knocked down by the impact. Small fires are being put out and Emergency lights come on. Crewman are injured.

COMMANDER LESLIE DURHAM Is everyone alright? What the hell was that?

LT. FLETCHER Sir, Romulan Warbird Attacking from Rear! Forward shields down to 20%, Rear shields are gone!

COMMANDER LESLIE DURHAM Damage report!

CHIEF ENGINEERING ASSISTANT LT. TALOUR That last hit took out our primary power and warp engines nacelles have taken damage. We've suffered moderate damage to the primary power grid, switching to secondary grid now, its barely holding.

Just then the primary warp Core and power systems start fluctuating and go to emergency power causing the shields to shut down.

CAPTAIN NATHAN PHILLIPS (O.S.)

Are you guys alright over there? Leslie?

COMMANDER LESLIE DURHAM

Set course 180 mark 0. Launch Quantum torpedoes full spread, Drone Fleet engage target Alpha...

All weapons fire and the Command section also assists and the 4th warbird is severely disabled.

LT. FLETCHER

Sir main power and drone system and Point defense all just went offline and we have enemy fighters closing in. Weapons are in emergency firing mode only.

CHIEF ENGINEERING ASSISTANT LT. TALOUR The Romulan virus just took our systems offline!

COMMANDER LESLIE DURHAM Captain, your going to have to come get us! Can you deal with those fighters?

INT. USS FALCON COMMAND BRIDGE - DECK 20

Falcon's command section heads towards the Combat section

CAPTAIN NATHAN PHILLIPS

Bikkir?

LT. CMDR. BIKKIR VUUM Point defense firing. Remaining romulan fighters are retreating.

CAPTAIN NATHAN PHILLIPS Alright, we need to get our people and get out of here. Computer initiate reintegration sequence and recover fighters.

COMPUTER VOICE

Warning Combat section automated systems not responding, scanning and checking Combat section status.

(MORE)

COMPUTER VOICE (CONT'D)

Implementing counter measures for contaminated operating system. Automated docking continuing.

LT CMDR. BIKKIR VUUM Fighters are returning to the hanger bays.

CAPTAIN NATHAN PHILLIPS Tell Lt. Arrowman to stand by to implement his plan. Lt. Wong coordinate repair teams to the Combat section as soon as they are docked.

EXT. USS FALCON - SPACE

Reintegration with the damaged combat section is proceeding and the Command section recovers its fighters.

INT. USS FALCON COMMAND BRIDGE - DECK 20

CAPTAIN NATHAN PHILLIPS Ensign set course for the nebula, maximum warp.

ENSIGN EDWARD ALVAREZ
Aye Sir, helm answering maximum
warp, we'll have to drop to impulse
in order to proceed sir in 3... 2..
1.. Impulse.

LT. CMDR. BIKKIR VUUM Romulan's are in pursuit and will be within weapons range in 4 minutes.

CAPTAIN NATHAN PHILLIPS How long until we reach the densest part of the nebula Ensign?

ENSIGN EDWARD ALVAREZ Reaching the deepest nebula in approximately 10 minutes at full impulse sir.

COMMANDER LESLIE DURHAM We won't make it entirely

CAPTAIN NATHAN PHILLIPS Helm, just get us into that nebula so the romulan sensors can't track us!

LT. CMDR. BIKKIR VUUM Shields and sensors dropping to minimal levels now..

LT. WONG

The nebula also consists of smaller asteroid and stellar debris. Radiation is also increasing slightly. Hull temperature rising but within acceptable limits.

ENSIGN ALVERAZ

Taking us deeper in.. Sensor range has decreased dramatically, I'm now having a tough time seeing what's ahead.

CAPTAIN NATHAN PHILLIPS Ensign Z axis minus 10,000 Km's, change heading to 60 mark 15. Lets try to keep the enemy guessing where we are..

LT. WONG

Were getting some fluctuations and feedback from the impulse drive, stellar debris could be clogging up the intake manifolds. I recommend we go to one quarter impulse.

CAPTAIN NATHAN PHILLIPS One Quarter impulse Ensign. Engineering, we are entering the Nebula.

ENSIGN EDWARD ALVAREZ

Aye Sir.

CHIEF ENGINEER COMMANDER VORIK (O.S.) Aye sir, Switching Bussard collectors, impulse intake and wake reduction generators to Nebula atmospheric mode.

The ship moves slower but deeper into the nebula and debris fields and suddenly comes across some larger planetary debris.

CAPTAIN NATHAN PHILLIPS Ensign can we navigate around that debris field and hide behind it?

ENSIGN EDWARD ALVAREZ I'll try sir.

CAPTAIN NATHAN PHILLIPS What's the status of those ships Bikkir?

LT. BIKKIR
Sensors are now at minimal levels,
I have lost sensor contact with
them.

CAPTAIN NATHAN PHILLIPS Lets hope they can't see us either.

EXT. USS FALCON - ROMULAN STELLAR DEBRIS NEBULA - SPACE

The Falcon is sitting behind some larger stellar and planetary debris and has lowered its power output in order to make repairs.

CAPTAIN NATHAN PHILLIPS (O.S.) Captain's log: mission update.. As feared the mission has not gone according to plan and Falcon's very survival is hinging on the next several hours. There's been no word from Admiral Black after his departure with the Stealth section on his secret mission and now I am faced with a relentless pursuing enemy intending on killing the Romulan ambassador. Were alone.. Our escorts are destroyed and were being hunted. The Romulan virus is also causing my engineers grief. Repairs are continuing and I have prepare for a new science officer.

INT. USS FALCON - COMBAT SECTION - AMBASSADOR'S QUARTERS - DECK 14

The Captain approaches Deck 14 in the turbolift as it opens to see two guards standing by on the floor and access to the ambassadorial wing. Other crewman are doing repairs and its bustling with activity outside of the wing.

CAPTAIN NATHAN PHILLIPS Gentlemen. Any issues?

SECURITY GUARD #1
No sir, its pretty quiet. The
Ambassador is eager to speak with
you.

CAPTAIN NATHAN PHILLIPS
Computer grant access to
Ambassadorial wing Alpha - Security
Clearance Falcon-Beta3-9Charlie.

COMPUTER VOICE Clearance granted, welcome Captain Phillips

The Captain Enters the Ambassadorial wing

INT. USS FALCON - COMBAT SECTION - DECK 14 - AMBASSADOR WING #1 - DAY

The Captain rings the Ambassador's door chime

ROMULAN AMBASSADOR Ah Captain.. Good to finally meet you. I trust my former Romulan compatriots are keeping you busy?

CAPTAIN NATHAN PHILLIPS You could say that.

ROMULAN AMBASSADOR Change is difficult. My people will learn the correct path in time.

CAPTAIN NATHAN PHILLIPS Right now I'm more focused on keeping us alive to complete the mission.

The Ambassadors door chimes

ROMULAN AMBASSADOR
Indeed.. Come in! Captain, As part
of the Federation New Romulan
Agreement, I'd like to introduce
you to your exchange program
Science officer, Subcommander
Talura Matar.

SUBCOMMANDER TALURA MATAR It's an honor to meet you Captain.. Reporting for duty.. I will serve you well and Pledge my loyalty to crew. Live long and prosper.

The captain looks confused.

CAPTAIN NATHAN PHILLIPS
Good to meet you as well..
Ambassador. I Mean no disrespect to
the subcommander but I think
there's been a miscommunication
here? I was told by Starfleet to
expect a Romulan science officer
and was supposed to meet up with
her after the mission to new
Romulus?

ROMULAN AMBASSADOR
The Subcommander is in fact half
Vulcan and half romulan. To answer
your second concern, it was decided
for her to accompany me instead.

CAPTAIN NATHAN PHILLIPS I didn't even know that having a child between a Romulan and a Vulcan was possible but I guess it makes sense. Romulan and Vulcans do share a common ancestry.

SUBCOMMANDER TALURA MATAR That is a common reaction. My father was Vulcan, my mother was a Romulan dignitary. Together they have helped Ambassador Spock's underground movement in the early years. They unfortunately were killed in an attack by the Tal Shiar not long ago.

CAPTAIN NATHAN PHILLIPS I'm sorry for your loss. I am a little confused as to why you didn't report for duty when you first arrived onboard? It's standard procedure.

ROMULAN AMBASSADOR
That was at my insistence Captain.
I required some help recovering
after visiting your medical bay and
the subcommander was able to
accommodate me.

CAPTAIN NATHAN PHILLIPS Ambassador, we do have a full service Holo concierge and staff who can assist if you need anything further.

ROMULAN AMBASSADOR
Yes I know I've started studying this luxury vessel of yours.

CAPTAIN NATHAN PHILLIPS
Ambassador? Spock's work those many
years ago was tremendously
important for the federation and
the Romulan people. The whole
reason we are here is to continue
that goal of unity and tear down
the walls of so many years of
mistrust. On a personal note, I
hope we can do just that here on
Falcon as well.

The captain turns to the subcommander

CAPTAIN NATHAN PHILLIPS (CONT'D) Subcommander? When I have more time, I'd be interested in hearing more about your parents and learning about your experiences. If you are ready to assume your duties, I could really use you on the Command bridge right now. Ambassador I need to get back to my ship. If you need anything, please contact my liaison officer Lt. Fang and she can assist you.

SUBCOMMANDER TALURA MATAR Captain, I am ready to serve as needed.

CAPTAIN NATHAN PHILLIPS Indeed. I think you and Vorik are going to get along just fine. Yes, I'll have Commander Durham get you settled in...

SUBCOMMANDER TALURA MATAR Vorik? He's here serving on the ship?

CAPTAIN NATHAN PHILLIPS Yes, do you know him?

SUBCOMMANDER TALURA MATAR Yes sir! It's just that.. we used to know each other.

CAPTAIN NATHAN PHILLIPS
Interesting response for a half
Vulcan.. (smirks) I look forward to
hearing more Talura.. Anyways,
Ambassador, I have to cut this
short unfortunately. Until later
then?

ROMULAN AMBASSAOR
Yes of course! Captain, if you need
my help at any point please don't
hesitate to ask. I can provide some

hesitate to ask. I can provide some tactical and political information on the adversaries Falcon is currently up against. There are opponents in the Romulan military who would rather see me dead than tell you anything. I'd not hesitate to assist with their destruction.

CAPTAIN NATHAN PHILLIPS Survival is really on my mind at the moment, were not here to wage war.. However your information may help. Any tactical data you have, please send to my tactical officer on the bridge. We will talk soon. After you subcommander!

The Subcommander and the Captain exit the Ambassadors quarters and head to the Bridge turbolift to the Command Bridge.

INT. USS FALCON - MAIN CONFERENCE LOUNGE - DECK 20

The crew is sitting around the large Conference lounge table waiting for the captain to arrive. The captain and subcommander walk in and the crew are confused.

CAPTAIN NATHAN PHILLIPS
At ease everyone, this is
SUBCOMMMANDER TALURA MATAR of the
new Romulan Science Academy. She's
your new science officer on the
exchange program. Lt. Fang, please
see to it that the Subcommander
gets a proper uniform and quarters
set up while she is here. Her
exchange is long term and she will
hold the rank of Lt. Commander
while she is here.

COMMANDER LESLIE DURHAM Sir? I'm a little confused. Why is she getting a Starfleet uniform?

CAPTAIN NATHAN PHILLIPS Orders commander. Starfleet's changing and we must change with it.

The captain whispers to the Commander

CAPTAIN NATHAN PHILLIPS (CONT'D) Starfleet has had a shift in policy regarding recruitment lately. It's a complicated political decision, I'll fill you in later.

He continues back towards the crew

CAPTAIN NATHAN PHILLIPS (CONT'D) Subcommander.. I mean I should say Lt. Commander Matar please take a seat and we can get started.

Talura Matar takes a seat

CAPTAIN NATHAN PHILLIPS (CONT'D) I need a status report from all departments on Falcon's condition and repair times. Vorik, what's our situation in engineering.

CHIEF ENGINEER COMMANDER VORIK Sir were continuing repairs to Combat sections engineering section. Warp core is still offline but we've been able to restore power through secondary conduits to most of the section from the command section's core.

(MORE)

CHIEF ENGINEER COMMANDER VORIK

Life support has been restore to most of the combat sections primary living quarters and operational areas. Hull and structural damage is contained and minimal. Weapons and defensive systems are currently offline.

CAPTAIN NATHAN PHILLIPS
Okay, concentrate your efforts on
primary power, then shields and
weapons. Utilize repair teams from
command section to speed up the
repair process. Do not launch the
automated repair drones for the
exterior hull repairs until our
combat situation improves. I don't
want the enemy detecting their
power signatures. That brings us to
tactical?

LT CMDR. BIKKIR VUUM
As you said Captain, Weapons and
Shields at the ready for the
Command section. Minimal damage to
the command section. We are low on
alpha drones. Most of the pilots
did manage to emergency beam back
to the ship in the last engagement.
We have runabouts and shuttles at
the ready. Without the Combat
section operational and only one
core working our shields are
extremely weak. Captain if I say
something here?

CAPTAIN NATHAN PHILLIPS ...We will get to strategy in a moment Lieutenant. Doctor how are we doing with the injured?

CHIEF MEDICAL OFFICER HAMID ABBUL 18 dead, 200 wounded in total. Not including the 300 or so lost or presumed dead on the galaxy escort vessels we couldn't rescue. Crewman who are able to return to work are doing so and are being released. The GALAXY1 and GALAXY2 crews are also eager to help out as well.

CAPTAIN NATHAN PHILLIPS Lt. Fang, please see that any crewman with skills and experience we can use are made use of and assigned duties immediately. Coordinate with Vorik for Damage control teams.

LT. M'MORA FANG

Yes sir.

CHIEF MEDICAL OFFICER HAMID ABBUL There's still the issue of notifying the families of the deceased..

CAPTAIN NATHAN PHILLIPS
There will be plenty of time to
grieve but for right now let's
focus on getting ourselves
operational and survive the next 24
hours.

The captain looks at Subcommander Matar

CAPTAIN NATHAN PHILLIPS (CONT'D) Subcommander, what can you tell me about the Romulan's who are pursuing us?

SUBCOMMANDER TALURA MATAR Their a faction of the old Romulan Military with their leaders having strong opposition against the federation.

CAPTAIN NATHAN PHILLIPS
Are we in fact dealing with the Tal
Shiar forces here?

SUBCOMMANDER TALURA MATAR Its possible they are involved but its not the Tal Shiar's way. When they strike, no one survives or they don't and you usually never see them coming. Since Romulus was destroyed many factions have been vying for power. Most of the old guard Generals branched off and controlled their own factions, waiting for an opportunity to seize power. This is causing a lot of confusion, aggression and conflict amongst the people.

(MORE)

SUBCOMMANDER TALURA MATAR (CONT'D)

Civil War may not be far away. The Tal Shiar is very much still an active player and control and influence a lot of resources. When the time is right you can bet on them stopping at nothing to seize control over the entire government and wipe out all opposition but the hardliners hate them as much as they do the federation.

CAPTAIN NATHAN PHILLIPS How many factions are there?

SUBCOMMANDER TALURA MATAR We are dealing with at least 7 different factions that I know of. Perhaps maybe 4 of them have real power and motive to control Romulus. While the remainder as still finding their footing. The Ambassador knows more than I do sir, it might be best to discuss this with him.

CAPTAIN NATHAN PHILLIPS
I want you to Coordinate with
Lieutenant Commander Bikkir and
figure out any tactical weak points
we can exploit. Were going to need
all the advantages we can get.

CAPTAIN NATHAN PHILLIPS Lt. Arrowman? How are your fighter crews handling things?

LT. MAX ARROWMAN We've had a few casualties but we are in fair shape sir.

CAPTAIN NATHAN PHILLIPS Keep running the simulators and coordinate with tactical. Alright Good.. I'm going to be counting on your teams going forward.

Pulsed Spatial charges start exploding near the ship in a many volleys but do no real damage.

CAPTAIN NATHAN PHILLIPS (CONT'D)

Captain to helm, take us out of this debris and set course for the next debris field further into the nebula and engage 1/8 impulse!

HELMSMAN #1 (O.S.)

Aye Sir! Setting course and engaging.

COMPUTER VOICE

Warning, Increased Radiation and hull damage to high impact particle bombardments detected. Shield strength low. Recommend radiation exposure protocol. Medical staff has been notified.

The E3CH appears

EC3H

Captain the ships integrity is starting to degrade. I have started evacuations of crew from outlying areas of the ship. Cargo bays 1 and 2 are being used as shielded areas.

CAPTAIN NATHAN PHILLIPS
Thanks birdie. Computer discontinue radiation warnings. Any signs of the enemy ships Lt?

TACTICAL OFFICER (0.S.) Lt. Purcell here sir, the enemy hasn't spotted us yet but the frequency of the spatial charges suggest they are closing in our position.

CAPTAIN NATHAN PHILLIPS Well, we can't stay in this nebula for much longer! I want solutions and a final tactical plan in one hour. Crew dismissed.

END OF ACT THREE

ACT FOUR

INT. USS FALCON COMMAND SECTION - DECK 20 HALLWAY - NIGHT

The Captain walks down the hall to the Turbolift and waits for the door to open and gets in

CAPTAIN NATHAN PHILLIPS

Deck 9!

The doors close and the turbo lift takes him to Deck 9

INT. USS FALCON COMBAT SECTION - DECK 9 - HALLWAY - NIGHT

The Captain gets out of the turbolift and walks towards the Observation Deck as he sees crewman repairing and coming and going from the Secondary Bridge access of the combat section.

CAPTAIN NATHAN PHILLIPS (V.O.) Captains Log: Falcon and her crew are being hunted by The Romulan factions who seek nothing less than destruction of the Federation. The Romulan Ambassador and my new half romulan science officer indicate that they will not give up. The ship is missing its 3rd section thanks to admiral black who I still don't know what mission or agenda the admiral is on and part of the ship is still crippled. The crew is handling things well but I'm stressed. The sooner we get back to federation space the better. I've had enough of the Romulan's for one mission.

CHIEF ENGINEERING ASSISTANT LT. TALOUR Captain? I did not expect to see you up here.

CAPTAIN NATHAN PHILLIPS I'm just passing by Lieutenant.

The captain stops for a sec.

CAPTAIN NATHAN PHILLIPS (CONT'D) Is anyone working in the Observation lounge?

CHIEF ENGINEERING ASSISTANT LT. TALOUR No and that section wasn't hit so it's clear. All yours sir.

CAPTAIN NATHAN PHILLIPS Thanks. I don't often get a chance to get up here and have a look especially without the stealth section attached. Might as well take the opportunity.

The captain walks into the Observation lounge.

INT. USS FALCON COMBAT SECTION - OBSERVATION DECK - DECK 9 - NIGHT

The Captain walks through the doors into the large empty observation room and heads toward the window. The EC3H appears.

EC3H

Is this a bad time to talk?

CAPTAIN NATHAN PHILLIPS Birdie.. I was hoping to spend what little time I have alone before the battle.

EC3H

I can come back if you...

CAPTAIN NATHAN PHILLIPS No.. Its alright. What's on your mind?

EC3H

I just wanted to remind the Captain that he has a great crew and that he should rely on them more in situations like this.

CAPTAIN NATHAN PHILLIPS What do you mean, I am relying on them..

EC3H

I've seen you like this before.

CAPTAIN NATHAN PHILLIPS

Huh?

EC3H

Or rather, your medical file indicates that behaviour but since I'm a hologram and I handle patterns pretty well, I'd say your thought processes haven't changed.

CAPTAIN NATHAN PHILLIPS Birdie, you either need a level 1 diagnostic or I have no idea what you are talking about?

EC3H

I'll get right to it.. Don't take too much upon yourself and blame yourself for everything going wrong. Not everything is your fault. This current situation requires you to ask for help from each and every crew. They now the situation and can help. You have to live with those choices. That is part of being a captain, making the hard choices. Don't shy away from it.

CAPTAIN NATHAN PHILLIPS
Am I worried? Yes. What captain
wouldn't be? Taking his ship into
battle while being at a severe
disadvantage against Romulan's bent
on killing you!

EC3H

There always are. Don't let the Romulan's get to you. Your crew is an asset. Also, I am also an asset. Did you know I can fly the alpha fighters?

CAPTAIN NATHAN PHILLIPS No I didn't. You are just full of surprises today.

EC3H

There are a lot of systems and programming that can be adapted to me. Since I am also a combat system.. I can be virtually upgraded indefinitely.

CAPTAIN NATHAN PHILLIPS Birdie.. I think you gave me an idea..

EC3H

Glad I could help. Now just remember, this isn't the end Captain. It's just the beginning. Trust your gut and your crew.

CAPTAIN NATHAN PHILLIPS No. It's not the end. Thanks for the pep talk.

INT. USS FALCON - MAIN CONFERENCE LOUNGE - DECK 20

The crew is sitting around the conference table and talking. The captain looks at Chief Engineer Vorik.

CAPTAIN NATHAN PHILLIPS Vorik?... Alright everyone, lets get started.

MONTAGE

INT. USS FALCON - MAIN HANGER BAY #2 - DAY - MONTAGE

The crew is busy working on outfitting the shuttles and work bees in the main hanger bay #2

CHIEF ENGINEER COMMANDER VORIK
The first part of the plan is to
outfit our work bees and Runabouts
with enhanced Power generators and
Holographic systems. Generating a
large power signature will be
difficult but we think we can match
Falcon's warp signature to a few of
the runabouts. The work bees will
act as alpha fighter signatures.

EXT. ROMULAN NEBULA - SPACE - MONTAGE

Work bees and the shuttles fly into position deep inside the nebula and debris fields.

LT. MAX ARROWMAN (V.O.) All shuttles will control the work bees behaviour with the help of our EC3H and will move into tactical formations to appear that Falcon is making a last stand.

(MORE)

LT. MAX ARROWMAN (V.O.) (CONT'D)

Pilots will engage the Holographic generators for each section of Falcon giving the Enemy the impression that we have separated the ship.

EXT. ROMULAN NEBULA - DEBRIS FIELD - SPACE - MONTAGE

Falcon moves behind a large debris field and hides half of its Alpha fighters behind debris waiting for the Romulan's.

LT. CMDR. BIKKIR VUUM (V.O.) Falcon itself will be hiding behind this large debris field and will launch half of its alpha wing and hide them on the other side of the debris field. We don't anticipate all of the ships to go after the decoys though.. Romulan fighters will be sent in to investigate and confirm Falcon is actually there and not a decoy, when they do alpha wing will engage their fighters and take them out. Decoy wings will move out of range of the romulan fighters sensors, and make it look as if Falcon is emerging from the nebula.

EXT. ROMULAN NEBULA - ROMULAN SHIPS - SPACE - MONTAGE

3 Romulan warships enter the nebula after the sensor data from the fighters being engaged.

LT. WONG (V.O.)
At this point the Romulan Captains will get distress calls and telemetry from their Romulan fighters and send in 3 warships while keeping two back in reserve. At least we hope so.

EXT. ROMULAN NEBULA - DEBRIS FIELD - SPACE - MONTAGE

3 Romulan Vessels Rush to aide their fighters but get hit by stealth mines and are heavily damaged and disabled while also being attacked by the second wing of Falcon's alpha fighters in a barrage of torpedo hits.

COMMANDER LESLIE DURHAM (V.O.)

At this point our Stealth Mines will move to intercept the Romulan vessels intercepting our Fighters engaged with theirs crossing the no return line.

LT. CMDR. BIKKIR VUUM (V.O.) At which point Falcon Launches its Drone Weapon system at the remaining ships and destroys them.

CAPTAIN NATHAN PHILLIPS (V.O.) Only if necessary Bikkir. Try to disable them first

LT CMDR. BIKKIR VUUM (V.O.) Yes sir.

EXT. ROMULAN NEBULA - DEBRIS FIELD - SPACE

The Romulan vessels are shown with heavy damage as Falcon emerges from the hiding spot.

ENSIGN ALVERAZ (V.O.) At which point Falcon emerges from the debris field and rearms its drones, picks up the decoy team, separates and engages the other two Romulan ships?

END MONTAGE

LT. CMDR. BIKKIR VUUM Sir the only part of the plan I am concerned about is that Falcon may still be outmatched against the two other romulan ships. Also, if they decide to send in more fighters for assistance from the other vessels, we could find ourselves out matched and outgunned fairly quickly.

CAPTAIN NATHAN PHILLIPS
That's true we could. In that case
as a last result, I will launch the
Temporal Heavy Weapons.

LT. CMDR. BIKKIR VUUM Sir those weapons have never been tested yet. Also, the devastating effects of temporal energy are still unknown.

CAPTAIN NATHAN PHILLIPS I know, I don't like the idea of using it anymore than you do! The TACYON TEMPORAL HEAVY WEAPON or more accurately called, the Planet Killer.

The Captain pulls up a display showing the weapons stats.

CAPTAIN NATHAN PHILLIPS (CONT'D) Terrible weapon.. It's Designed for swallowing whole planets and erasing them from time or just making them disappear from our universe. The ultimate destructive power. It's partly based on the Genesis device and partly based on Borg Temporal technology. The potential damage to subspace and the time-space continuum alone is enough to give anyone pause. I argued with Starfleet over the development of this weapon. It's too powerful and its irresponsible and they put it on my ship! Like I said a last resort but I would use it to protect this ship and crew and I'd use it without hesitation.

A short silence comes over the crew.

CAPTAIN NATHAN PHILLIPS (CONT'D) Alright! Are there any questions on the plan? Does everyone understand the plan? This is a good plan and I think we will put up a good fight. You're a fantastic crew and we will get through this. Dismissed! All hands to battle stations.

EXT. USS FALCON - ROMULAN DEBRIS FIELD - OPTICAL

USS Falcon moves into position and deploys mines and then moves to debris field to hide in a tactical position near the kill zone.

INT. USS FALCON COMMAND BRIDGE - DECK 20

The Crew is at their posts and the Captain stands ready

CAPTAIN NATHAN PHILLIPS Alpha wing and decoy units, happy hunting.

LT. MAX ARROWMAN (O.S.) Acknowledged Falcon, you too

The decoy team and fighters move into their respective positions.

EXT. ROMULAN NEBULA - DEBRIS FIELD - SPACE (OPTICAL)

The decoy units and runabouts move into position to look like 3 convoy groups from Falcon and they energize their hologram generators.

INT. USS FALCON COMMAND BRIDGE - DECK 20 - DAY

COMMANDER LESLIE DURHAM Computer go to silent Red Alert and grey mode!

CHIEF ENGINEER COMMANDER VORIK Vorik to Engineering, Set condition Emergency power standby and initiating Grey mode Captain. Lower warp core matter anti-matter reactions to lowest levels and plasma flow slowed to 10%. All systems ready. Emergency mode completed sir.

COMMANDER LESLIE DURHAM Ships is now operating in Emergency grey mode until you give the signal sir!

CAPTAIN NATHAN PHILLIPS Thank you Number one. Tactical what's our status?

LT. CMDR. BIKKIR VUUM Enemy Fighters are on approach to the decoys. They haven't yet passed our little surprise yet. Drones on standby. Romulan vessels are closing but still too far.

CAPTAIN NATHAN PHILLIPS We want those vessels past our lines.

LT. WONG

Sir the Romulan's are using some kind of tachyon pulse in the nebula. They may be trying to locate or confirm the sensor echo's.

COMMANDER LESLIE DURHAM Have the Romulan's spotted our decoys yet?

LT. WONG

Unknown. The Romulan fighters are changing course.

LT. CMDR. BIKKIR VUUM Yes! The Romulan fighters have spotted the fleet.

CAPTAIN NATHAN PHILLIPS Falcon to decoy fleet, the stage is set!

LT. MAX ARROWMAN (O.S.) Aye sir, taking evasive maneuvers

LT. CMDR. BIKKIR VUUM Alpha wing engage Romulan fighters wings 1 through 5.

LT. MAX ARROWMAN (O.S.) Alpha wing encountering heavy resistance sir!

CAPTAIN NATHAN PHILLIPS Beta Wing engage!

LT. CMDR. BIKKIR VUUM Beta Wing engage Romulan flank.

A massive battle of fighters ensues while the decoy holographic Falcon segments fall back but support with limited weapons fire from the rest of the runabouts.

CAPTAIN NATHAN PHILLIPS Bikkir, What's happening with the Romulan ships?

LT. CMDR. BIKKIR VUUM The Romulan's have sent in.. Five heavy cruisers into the nebula!

CAPTAIN NATHAN PHILLIPS Five? That unfortunate.. Where are they now?

LT. CMDR. BIKKIR VUUM Approaching the line! Wait. Three of them have stopped Two are approaching the line! Five more Romulan squadrons are launching.

COMMANDER LESLIE DURHAM We can't fight off that many!

CAPTAIN NATHAN PHILLIPS Bikkir Launch all our drones and target the Two Romulan Cruisers approaching the mine field..

LT. WONG Sir. Mines are exploding! Minor damage to the Romulan vessels!

CAPTAIN NATHAN PHILLIPS

Damn!

LT. CMDR. BIKKIR VUUM Sir, Three Romulan vessels are going for decoys and the other 2 are heading here, two fighter wings are on approach!

CAPTAIN NATHAN PHILLIPS Engineering Full power! Tactical, Launch Charlie wing and all remaining drones in defensive mode. Intercept all photons. Looks like the plan isn't going to work as we expected. Helm, Take us out of this hiding spot, 1/4 impulse.

Falcon starts launching everything they have and sets up a defensive posture for the incoming Romulan forces.

COMMANDER LESLIE DURHAM Birdie? Launch Battle Section, Black Alert!

E3CH

Battle section's operating at forty percent. Warp power unavailable switching to primary, secondary and tertiary fusion generators at one hundred thirty percent. Shields at fifty percent.

CAPTAIN NATHAN PHILLIPS Helm! Take the command section to a defensive posture. Lock all weapons on those fighters. Fire.

Falcon engages the oncoming fighter wings and manages to take them out. All fighters then regroup and head for the Romulan Heavy cruisers incoming.

LT. CMDR. BIKKIR VUUM
Romulan Heavy Cruisers incoming.
Sir, Alpha and Beta wings have
taken casualties, Romulan's fighter
wings are down to 2 wings left.
Decoy wings report the 3 romulan
cruisers are turning towards Falcon
now!

CAPTAIN NATHAN PHILLIPS Okay the gig is up, this is it people. Decoy wings, assist fighter wings.

COMMANDER LESLIE DURHAM Sir, Battle Section is engaging the Romulan's. Taking moderate damage.

CAPTAIN NATHAN PHILLIPS Continuous fire on the Lead Romulan Cruiser Bikkir!

 $$\operatorname{LT.}$ CMDR. BIKKIR VUUM I am sir..

The Falcons forces are getting out gunned but holding just barely.

LT. CMDR. BIKKIR VUUM (CONT'D) Sir, Drones are depleted. Alpha fighters report they are out of ordinance, phaser only. Sir, we can't hold the Romulan's much longer.

The other romulan Vessel comes for the Command section

LT. CMDR. BIKKIR VUUM (CONT'D) Shields are down to 50%... Make that 25%..

ENSIGN EDWARD ALVAREZ Sir, shall I get us out of here?

CAPTAIN NATHAN PHILLIPS Negative ensign we have people out there. Evasive pattern Delta!

The captain looks increasing stressed and erratic for a moment.

EXT. ROMULAN NEBULA - DEBRIS FIELD - SPACE

The Admiral and the stealth section de-cloak and take aggressive Tactical fire on the Attacking Romulan Vessels, destroying the lead ship.

INT. USS FALCON COMMAND BRIDGE - DECK 20

The crew breaths a sigh of relief as they see the Stealth section engage the enemy on the view screen.

LT. CMDR. BIKKIR VUUM Sir the Admiral is hailing.

CAPTAIN NATHAN PHILLIPS Admiral? A little late than never?

ADMIRAL BLACK (O.S.) What's your status?

CAPTAIN NATHAN PHILLIPS Took heavy damage and most of our people are in trouble. Timing was impeccable as usual Admiral! Hope you brought back some souvenirs?

ADMIRAL BLACK
No. Much better than that! We'll
finish up here and head over to the
other group. You've done a great
job here today Nathan! Oh and I

brought some friends. Docking shortly, Admiral Black out.

The Admiral switches his screen to show several dozen Romulan, federation and newly built Vulcan warships.

LT. CMDR. BIKKIR VUUM Admiral, what type of ships are those? They are registering as Vulcan?

ADMIRAL BLACK Lieutenant you are correct, those are Vulcan warships.

CAPTAIN NATHAN PHILLIPS Vulcan warships sir? Isn't that a little outside of their beliefs?

ADMIRAL BLACK
No time to fully go into details
now Nathan, suffice to say the
Vulcans are adaptive to new ideas..
I'll brief you later. Admiral Black
out.

COMMANDER LESLIE DURHAM Certainly does know how to make an entrance doesn't he?

CAPTAIN NATHAN PHILLIPS Tell me about it.

LT. MAX ARROWMAN (O.S.) Arrowman to Falcon! Alpha and Beta wings here, the new romulan fleet along with Admiral black have forced the Romulan fighters and warships to retreat. Were on our way back in to the barn.

CAPTAIN NATHAN PHILLIPS Acknowledged. Doctor, please get ready to receive casualties from fighters wings..

CHIEF MEDICAL OFFICER HAMID ABBUL (O.S.)

Already on it sir, You'll have my report soon. Doctor Abbul out..

CAPTAIN NATHAN PHILLIPS Lt. Fang, please see to the Admiral and Ambassador once the Admiral has docked. He's going to want to schedule a meeting I'm sure.

LT. FANG

Aye Sir!

INT. ROMULAN REBEL WARSHIP - BRIDGE - SPACE

A romulan warship sits with its fleet somewhere in the romulan system as a romulan captain arrives in a damaged vessel and transports over.

GENERAL VREENAK

So.. What is the status of my task force Captain?

ROMULAN CAPTAIN

We were defeated...

GENERAL VREENAK

Defeated? How is that possible?

ROMULAN CAPTAIN

Sir, the Federation, the new romulan government and now a secret Vulcan fleet surprised us.

GENERAL VREENAK

You mean, the Falcon with the ambassador is still alive?

ROMULAN CAPTAIN

Yes.

GENERAL VREENAK

You know the punishment for failure?

ROMULAN CAPTAIN

Yes sir!

GENERAL VREENAK

Your family will be cared for and I will train your son as one of my own...

ROMULAN CAPTAIN

Thanks you..

(Vreenak cuts the Captain's throat and then shoots him with a disruptor).

GENERAL VREENAK

Get this stench of failure out of my sight!

Two romulan lieutenants come and remove the deceased captain

GENERAL VREEENAK

How are our ground forces fairing?

ROMULAN SUB-LIEUTENANT

Not well sir, They failed to capture and secure the Government buildings. Also we have another problem.

(MORE)

ROMULAN SUB-LIEUTENANT (CONT'D)

The Tal shiar have attacked two of our shipyards in the HAAKONA Sector as well as a federation star base and the Federation fleets are on full alert along the borders.

GENERAL VREEENAK

Dammit, those stupid impetuous obsessive Demons! Looks like I will have to deal with Captain Phillips and the Federation at a later date. Alright. Set course for HAAKONA IV. Warp 8. Tell the fleet Captains to rendezvous there. Looks like this war is going to take a lot longer than we expected.

INT. USS FALCON CAPTAIN'S READY ROOM - COMMAND SECTION - DAY

The Captain walks over to the replicator and orders beverages for everyone

CAPTAIN NATHAN PHILLIPS Computer, Three Vulcan Dark Mocha's, 2 cream, 1 sugar, Admiral?

ADMIRAL BLACK No I'm fine thank you Nathan.

The replicator materializes and he hands the tray with the rest of the beverages to his first officer to hand to the others.

CAPTAIN NATHAN PHILLIPS
Admirals, Ambassador. We have a
mission to complete however the
Ambassador asked us to discuss the
matter here together, I've also got
Sector Admiral Stevens and Admiral
Janeway on subspace. Admirals?
Ambassador please go ahead.

ROMULAN AMBASSADOR

Thank you for meeting with me. I must plead the case to postpone my mission to arrive at star base for my debriefing, the situation on New Romulus is at a critical stage. I have lost contact with my staff and I have not been able to contact the acting Proconsul or his aides office since the assault on the city.

(MORE)

ROMULAN AMBASSADOR (CONT'D)

I have received word through my sources in the intelligence division that there are now at least 4 Romulan factions trying to seize power from the government from within as well as militarily. I simply must go back before we continue on to Federation space.

ADMIRAL STEPHENS

Ambassador, the Federation needs the information you have to deliver as well as debrief you on the situation. We sympathize with the current New Romulan state however I must ask you, what is to gain by risking USS Falcon further by returning to New Romulus. The federation council has already scheduled the meeting and is standing by.

ADMIRAL KATHRYN JANEWAY Gentlemen! I happen to agree with Admiral Stephens on this one. The Ambassador needs to complete his mission and Falcon is in no shape in the event there is a problem, the council needs that information. Its too risky. I do agree New Romulus is a major agenda item however. Let me ask you Ambassador, what good will returning to New Romulus at this stage do? The City is under siege and its an internal matter to the Romulan people to stop these attacks. While the federation is upset this is happening, we can't interfere.

CAPTAIN NATHAN PHILLIPS I agree with Admiral Janeway, the situation in New Romulan territory is volatile and Falcon is in no shape for any more engagements and we are not going to violate the prime directive! The stealth section is near fully operational however and it's cloak is working.

ADMIRAL BLACK
Captain, Admirals, I have to
disagree here.
(MORE)

ADMIRAL BLACK (CONT'D)

The New Romulan issue is Starfleet's main mission priority, If New Romulus falls, it will fracture the population destabilizing the entire Alpha quadrant and there will be a surge in terrorism and warfare as the region falls into chaos. Falcons involvement has been crucial on this mission and will be in the next while however the overall mission will fail if New Romulus falls to the factions. With all due respect to Captain Phillips.. Falcon is expendable in the greater mission here.. The Federation council places the highest priority on the success of several key developments in operation. The Ambassador should be allowed to return to the New Romulus to retrieve more info and also maintain his connection to the leadership at this point. Also, we can gather more information on the ground as we are currently blind to who and what the threats actually are.

ADMIRAL KATHRYN JANEWAY Admiral Black, we're on the same side in terms of getting new romulus to a positive outcome and getting more intelligence however this could get ugly quick and we are not going to break the prime directive here either!

The Admiral takes a brief pause while she thinks it over

ADMIRAL KATHRYN JANEWAY (CONT'D)

Admiral Black is correct. Starfleet's agenda is pretty clear as is the federation council. Nathan, it's your ship, I'll back whatever plan you think has the best chance here. The information the Ambassador possesses will aid the federation going forward in helping the Romulan people, we must complete that mission. Its not data or information that be transmitted over subspace and must be delivered in person.

(MORE)

ADMIRAL KATHRYN JANEWAY (CONT'D)

If you feel Falcon can take on this away mission with reasonable success and then return the Ambassador to Federation space.
I'll support your plan. Admiral Stephens?

ADMIRAL STEPHENS
I am in agreement with Admiral
Janeway.

CAPTAIN NATHAN PHILLIPS Looks like its in for a pound in for a penny I suppose?

(Nathan moves towards the window)

CAPTAIN NATHAN PHILLIPS (CONT'D) I think Falcon may be up for one last mission for the Ambassador. I agree that we need more information and the only way we are going to get it is by going tot he surface. We all want a stable safe New Romulus. If it means one more contact or line of communication to support the Romulan's in this then it's worth trying the Ambassador's plan. I will of course take a few precautions, Oh and Admiral? We are going to do this my way! It's my crew, my ship and my mission. Are we on the same page Admiral? (Nathan looks at Admiral Black)

ADMIRAL BLACK

I don't like the tone you are giving me right now but I agree to your terms. I will be accompanying you as oversight though. That isn't negotiable.

ADMIRAL KATHRYN JANEWAY Alright, Good luck everyone, I expect a full report Captain when you get back! Starfleet out.

ADMIRAL STEPHENS

Good luck.

View screen communication ends.

ADMIRAL BLACK

Nathan a moment?

CAPTAIN NATHAN PHILLIPS

Admiral?

ADMIRAL BLACK

I just wanted to say, I was surprised your initial position on this! I'm glad you changed your mind.

CAPTAIN NATHAN PHILLIPS Jeff, I don't like leaving a mission unfinished, breaking the prime directive or taking needless risks with my ship and crew! I'm doing this because its the right thing for the federation. I don't know what other agenda you have going on here but I have to trust you have my crew's and Starfleet's best interest at heart. If that changes or you compromise the safety of this vessel or crew further, I will have you removed from this vessel and be filing an official complaint with the JAG office. Now you are my superior officer and my friend and you may take whatever action you deem necessary but I think I've made my intentions clear.

ADMIRAL BLACK

Nathannn... that's a bit harsh for your old friend and mentor don't you think? Part of being an Admiral is looking at the big picture and yes sometimes we have to order the friends and people under us to do the things we need getting done, you know this as a Captain. You really surprised me today...

CAPTAIN NATHAN PHILLIPS Permission to speak freely?

ADMIRAL BLACK This ought to be good, okay permission granted!

CAPTAIN NATHAN PHILLIPS
You are worse than my ex-wife!
Patronizing me about the rigors of
command? Really Jeff?
(MORE)

CAPTAIN NATHAN PHILLIPS (CONT'D)

My wife by the way also didn't tell me much during our marriage, which is why it ended so abruptly. Maybe I wouldn't be so antagonistic with you if I wasn't getting surprised every 5 minutes from you! Tell me what's really going on and maybe I'll start trusting you a bit more..

ADMIRAL BLACK I can't Nathan.. It's classified

CAPTAIN NATHAN PHILLIPS (CONT'D) It's classified. I know.. that doesn't change my feelings about where things may be headed. I don't like being in the dark, its dangerous without a flash light Admiral!

The Admiral takes a look back at Nathan and walks out and Nathan walks over to Commander Durham.

CAPTAIN NATHAN PHILLIPS (CONT'D) Leslie, I need you to start searching for through all records relating the Admirals Missions as

relating the Admirals Missions as of the last year while I'm gone with the Admiral and Ambassador.

COMMANDER LESLIE DURHAM Thinking he's up to something?

CAPTAIN NATHAN PHILLIPS
Yes and I'm not sure how this is
going to play out yet, but I have
concerns. His relationship to these
particular Romulan's for example..
See what you can find out. It may
be nothing but I want to make sure.
Oh and keep this to yourself and
Lt. Vuum for now..

COMMANDER LESLIE DURHAM Will do. Anything else?

CAPTAIN NATHAN PHILLIPS No. Let's just hope the Admiral is still on our side.

COMMANDER LESLIE DURHAM Our side or the federations?

CAPTAIN NATHAN PHILLIPS

That's an odd question number one?.. Both of course! I think you've been hanging out with LT. VUUM a little too much (grins)

COMMANDER LESLIE DURHAM Probably...(smirks) That Naussicaan disposition I suppose.. I'll get right on it.

CAPTAIN NATHAN PHILLIPS (taps combadge) Captain to Operation Team Alpha, join me on the Stealth section, Deck 1 for immediate departure... Phillips to ROMULAN AMBASSADOR please join me on Deck 1, Stealth Section.

ROMULAN AMBASSAOR (O.S.) Yes, Captain, I will meet you there momentarily.

SUBCOMMANDER TALURA MATAR Captain, I request to accompany you and the away team for the Ambassador on this mission..

CAPTAIN NATHAN PHILLIPS Right.. Talura.. You're with me. Ensign, Lieutenants?

The Captain motions to Lt. Wong, Lt. Alveraz, Lt. Vuum and Subcommander Talura to follow him to the turbo lift and get in.

CAPTAIN NATHAN PHILLIPS (CONT'D) Deck 1, Stealth Section

The Doors close.

Aye Sir.

INT. USS FALCON BRIDGE - STEALTH SECTION - DECK 13 - SPACE

The Admiral and Ambassador are already on the bridge when alpha team arrive from the turbolift.

CAPTAIN NATHAN PHILLIPS Helm Go to Separation Mode and clear all umbilical's, prepare to disengage from Falcon.

ENSIGN EDWARD ALVAREZ

CAPTAIN NATHAN PHILLIPS Set course back to New Romulus and engage cloak once we are clear... Warp 9.. Engage.. Admiral, are your friends coming with us?

ADMIRAL BLACK Not this time i'm afraid but they will be in range if we need them.

CAPTAIN NATHAN PHILLIPS Funny. I thought we did need them. Bikkir, what do long range sensors tell us about any ships near the planet..

LT. CMDR. BIKKIR VUUM Long range sensors show multiple Romulan Vessels, but you can count on most of them being cloaked.

CAPTAIN NATHAN PHILLIPS Any way to tell how many are friendly?

ROMULAN AMBASSADOR
Captain, typically Romulan vessels remain under cloak unless they are attacking, offloading cargo or are performing fleet operations or simply want us to know their numbers and are making a statement. I advise caution as there are many factions involved in the military actions as of late. The uncloaked vessels could also be decoys or be using a tachyon detector fields to try to detect cloaked vessels.

CAPTAIN NATHAN PHILLIPS Interesting! How can you be sure?

ADMIRAL BLACK

Captain, it makes sense. You're going to have to trust the Ambassador on this one I'm afraid. We should try to avoid getting too close to those ships. Don't forget we have our life line if needed if things go sideways.

CAPTAIN NATHAN PHILLIPS Comforting knowing that more potentially hostile Romulan's are around to help! No offense Ambassador.

ROMULAN AMBASSADOR
None taken. Once we arrive at New
Romulus, I need to signal the
surface and I will let them know I
am.. rather, that our landing party
is arriving.

CAPTAIN NATHAN PHILLIPS Lt. Vuum can assist you with that.

SUBCOMMANDER TALURA MATAR I believe I can be of assistance to the Ambassador once we reach new Romulus sir.

CAPTAIN NATHAN PHILLIPS Okay, do it. Lt. Vuum can assist

The captain gives an odd expression and nods at Lt. Wong and he presses a few buttons.

SUBCOMMANDER TALURA MATAR Ambassador, once we reach New Romulus what are your intentions?

ROMULAN AMBASSADOR
I plan to pay the Proconsul's
office a visit in the capital and
get an update on the ground
offensive in and around the
capital.

SUBCOMMANDER TALURA MATAR Is that wise Ambassador?

ROMULAN AMBASSADOR Are you questioning my decision subcommander?

SUBCOMMANDER TALURA MATAR No ambassador, only urging caution! If the capital is under siege?

CAPTAIN NATHAN PHILLIPS I'd have to agree with Talura here, the situation is unknown and we could be beaming into a rough situation.

We'll one things for sure, we won't find out what's going on down there unless we go down and have a look.

CAPTAIN NATHAN PHILLIPS
Agreed however Admiral you can't go
down there without protection!
Knowing you however I know you are
not going to stay behind so that
means i'm coming with you.

LT. CMDR. BIKKIR VUUM Sir! As your acting first officer..

CAPTAIN NATHAN PHILLIPS
I know what you are going to say
Lieutenant! Don't worry I want you
and a team of security personnel to
beam in first and secure the
landing zone. Lieutenant Wong will
be in command while i'm gone.
Telura, What can you tell me about
the building we are beaming into?

SUBCOMMANDER TALURA MATAR There are several security positions and systems that in the event we are not greeted, will need to be disabled. Also, that is assuming the shield codes work otherwise this is going to be a very short trip or we could end up on the other side of the planet..

LT. CMDR. BIKKIR VUUM (says under his breath) Romulan's! Over dramatic security practices!

CAPTAIN NATHAN PHILLIPS Anything else we need to know?

ROMULAN AMBASSADOR Once we beam in and the area is secure I will try to contact the Proconsul myself alone.

CAPTAIN NATHAN PHILLIPS With all do respect Ambassador, we go together, there's no telling whether he's been compromised or what the state of the building or leadership is.

ROMULAN AMBASSADOR

Very well.

ADMIRAL BLACK
Okay we'll go with your plan
Nathan. Are you ready Ambassador?

ROMULAN AMBASSADOR Signaling the surface now!

LT. WONG

Getting a response sir, the signal is pretty weak and garbled.

LT CMDR. BIKKIR VUUM
Let me see if I can clean that up
for you! Ah yes.. The Romulan's
have a knack for encryption. Our
decryption routines are only
partially working. Ambassador did
the New Romulan government create a
new protocol?

SUBCOMMANDER TALURA MATAR Let me assist. Okay, that should clear it up.

LT CMDR. BIKKIR VUUM Hmmm... Later you will have to tell me about this new encryption protocol, if we are going to be allies? Audio only captain, coming through now. Channel open.

The view screen is garbled but audio is working

ROMULAN AMBASSADOR

This is Ambassador Pentar - diplomatic access code - Raptor-5-6-9-Authenticate

ROMULAN TRANSMISSION AGENT (O.S.)

Code confirmed, hello ambassador. This is relay station 4-1-5. The Proconsul has been unreachable due to the communications blackout and the factions have been scrambling our comm channels. I must admit we are surprised to hear from you and thought your mission was underway. Standby..

(MORE)

ROMULAN TRANSMISSION AGENT (O.S.)

I'm sending you a set of landing coordinates for the proconsul's office and a deactivation code so you can transport in. City Center is currently safe and secured, the siege is currently taking place outside the capitol walls however. That's as much as I can tell you. Sending code.

LT. CMDR. BIKKIR VUUM Code received.

ROMULAN AMBASSADOR
Please be advised ACCESS LEVEL
PRIORITY 2, I am bringing guests,
Relay station control. Please allow
more bandwidth and a second beam in
cycle for security personnel ahead
of my beam in.

ROMULAN TRANSMISSION AGENT Confirmed. Bandwidth and second code approved and submitted to the Defense net. Is there anything else Ambassador?

ROMULAN AMBASSADOR No that should suffice. Ambassador out.

ROMULAN TRANSMISSION AGENT (O.S.) Have a good day Ambassador, Relay station out.

INT. NEW ROMULUS - BEAM IN SITE - PROCONSUL'S HALLWAY - DAY

The away team transports into an adjoining hallway with Romulan guards and Starfleet security personnel in a protective circle.

CAPTAIN NATHAN PHILLIPS Lieutenant! Status report?

SECURITY LIEUTENANT All clear sir, Romulan Guards were expecting us, no hostiles...

ROMULAN AMBASSADOR
The Proconsul's office is this way

CAPTAIN NATHAN PHILLIPS

The Admiral and I will accompany you Ambassador.

SUBCOMMANDER TALURA MATAR

As will I Ambassador

ROMULAN AMBASSAOR

As you wish... although entirely not necessary Captain, I am quite safe.

The group enters the office.

INT. NEW ROMULUS - PROCONSULS OFFICE - DAY

The office is quite large and 2 guards standing by the entrance and 2 by the proconsul and 1 man are sitting down.

ROMULAN AMBASSADOR

Pro Consul?

ROMULAN PROCONSUL

I am a little confused Pentar? Why have you returned so early?

The Ambassador moves closer

ROMULAN AMBASSADOR

To give you a message..

ROMULAN PROCONSUL

What?

SUBCOMMANDER TALURA MATAR

Look out!

The Ambassador shape shifts and takes out the 4 guards guarding the Proconsul just as The Subcommander starts firing at the Ambassador while the Captain covers the Admiral and the other Starfleet security personnel rush in.

ADMIRAL BLACK

Its a changeling!

CAPTAIN NATHAN PHILLIPS

A what?

Just then the Changeling like creature is destroyed before it has a chance to attack the proconsul by automated and security personnel.

SECURITY LIEUTENANT

Cease fire!

CAPTAIN NATHAN PHILLIPS Can someone explain to me what the hell just happened? Admiral? Was that a Dominion Changeling?

ADMIRAL BLACK
Damn! I think we can discuss this later Captain? I will explain later.

CAPTAIN NATHAN PHILLIPS Proconsul are you all right?

ROMULAN PROCONSUL
We've had growing concern over
their being a potential
assassination attempt. With the
fighting outside, I figured someone
would slip in through the military,
not from your ship Captain.

CAPTAIN NATHAN PHILLIPS Were going to figure out what happened here today but for now we need to return to our ship.

SUBCOMMANDER TALURA MATAR Sir, I'd like to get a sample of the remains for analysis aboard my ship.

CAPTAIN NATHAN PHILLIPS Is that okay with you Proconsul?

PROCONSUL

Yes of course! We will do the same. I find it hard to believe the Dominion is involved however as they are not even operating in the Alpha quadrant anymore.

CAPTAIN NATHAN PHILLIPS
Were going to get to the bottom of
this sir! We will keep you
informed. I do have a pressing
concern that with the Ambassador or
whatever he was, dead, my ship may
be in danger and I need to return!

Of course! Captain, but before you go i'm giving you a data module on our current status and a new communications frequency code and encryption matrix. You and Starfleet should be able to communicate with us and if the real ambassador is still alive he may also need this. Have him contact me as soon as you find out what happened to him. I will also say ... it is good to meet you even if under these circumstances! I have heard good things about you and I look forward to getting to know better in the coming time. (he looks at the Admiral in recognition). You can tell

Starfleet that we are currently handling the siege and civil order is being restored. The New Romulan Government is working to restore control and it shouldn't be long

until that is completed.

ROMULAN PROCONSUL

ADMIRAL BLACK Starfleet will be glad to hear that Proconsul and the federation is positioned to assist in anyway that we can. I look forward to communicating further with you as well.

CAPTAIN NATHAN PHILLIPS
Thank you Proconsul. Admiral? let's
get everyone back. Phillips to
Falcon, 6 to beam back, Energize.

INT. USS FALCON - STEALTH SECTION - BRIDGE - DECK 1 - SPACE

The crew has a concerned look on their faces as they hear the argument going on in the Captain's ready room.

INT. USS FALCON - CAPTAIN'S READY ROOM - DECK 1 - SPACE

The Captain and Admiral are standing arguing with each other over the meeting table.

CAPTAIN NATHAN PHILLIPS
Admiral I told you if you
endangered my ship over this
business.. This is exactly the kind
of surprises that could get us all
killed.

ADMIRAL BLACK

Nathan I told you I couldn't talk about it in front of the Romulan's! And for gods sakes! Please remember here that I'm your friend and your commanding officer! I do what I have to! I know you have history with the Romulan's that might cloud your judgment and my suggestion is..

CAPTAIN NATHAN PHILLIPS
Are you really going to go there?
This has nothing to do with my
parents death.. You're not telling
me the whole truth Admiral! Romulan
changelings infiltrate my ship and
pose as an Ambassador? I mean when
were you going to mention that part
or did Starfleet even know about
this?

ADMIRAL BLACK

I didn't know the Ambassador was a changeling assassin and I certainly didn't know he was planning to Assassinate the Romulan Proconsul!

CAPTAIN NATHAN PHILLIPS
But you did know of "A" threat?
Starfleet is going to hear to get
my report on this incident.. I
can't protect you forever Jeff
especially if the trust is running
one way! I understand secrecy but
this put the mission in jeorpardy!
For god sakes.. give me something..
you owe me that much!

ADMIRAL BLACK

Nathan.. you need to calm down and listen to me. Starfleet is NOT going to hear about this incident..

CAPTAIN NATHAN PHILLIPS What? What are you talking about? The Romulan's..

The changeling or whatever that attacked the Proconsul is... a rogue weapon and classified by Starfleet intelligence....

CAPTAIN NATHAN PHILLIPS What? What are you talking about? How do you know that?

ADMIRAL BLACK

I have certain friends at Starfleet Intelligence. My security clearances go higher than yours do and I also have a lot higher friends in the security division. Need I say more?

CAPTAIN NATHAN PHILLIPS
Yes! That's the whole issue here..
Admiral? You already knew about
this before we left spacedock
didn't you? Wait.. Are you now
telling me that the Federation
developed a changeling Assassin?

ADMIRAL BLACK

First off it's not a Changeling..
it's not organic or close to being
anything found in nature.. It's an
artificial lifeform similar to
Nuien Soon's work but was based on
bio-engineering based on tech
starfleet's Security R&D came up
with. The prototype you saw was a
morphagenic weapon or called PMW
for short. The whole thing is
Classified Ultra violet or above. I
could be stripped of my command
just for mentioning it.

CAPTAIN NATHAN PHILLIPS How could the federation create such a monster? Were not in the assassination business!

ADMIRAL BLACK

Not entirely, Section 31 stole the prototype, materials, schematics and testing equipment and developed their own unit.

CAPTAIN NATHAN PHILLIPS What? Section 31? What is that? Has Starfleet gone crazy? This is right out of Mary Shelley Frankenstein and the Body snatchers. When the Dominion finds out about this...

ADMIRAL BLACK
I'm not familiar with those
references Nathan but All I can
tell you is that the Dominion won't
find out and they wouldn't really
care anyways unless it crosses the
to the Gamma quadrant. Deep Space
Nine is on high alert over this
issue and there is only one
prototype at large. Now that we
know we destroyed it...

Admiral black recomposes himself

ADMIRAL BLACK (CONT'D)
To answer your question. Section
31 is a secret organization within
the Federation that adheres to the
"section 31 of the charter".
Essentially a loophole that this
intelligence agency aligns itself
to. The Federation has had a lot of
"encounters" over the years with
them, Deep Space Nine, Captain,
Archer. of course all of those
encounters classified secret by the
federation intelligence division.
Only Admirals and above are aware
of section 31 activities now.

CAPTAIN NATHAN PHILLIPS You should read more classical Earth literature...

ADMIRAL BLACK

Pardon?

CAPTAIN NATHAN PHILLIPS Frankenstein.. good book.

The captain paces around the room a bit

CAPTAIN NATHAN PHILLIPS (CONT'D) So, You're telling me that the Federation has a rogue intelligence agency operating within the

agency operating within the federation? Who all is part of this agency? Starfleet intelligence personnel? Are you part of this?

ADMIRAL BLACK

Section 31 is not run by Starfleet and yes there are personnel who are in Starfleet that are part of it however they remain hidden from us. It's not an official organization and to be honest with you, its an organization that the federation tries to take out on a regular basis as it challenges its legitimacy...however there have been some cases of Section 31 involvement where the outcomes were favorable. They see themselves as protecting the federation from the federation when the rules don't allow the federation to act in the best interests of itself, if that makes sense.. They protect but they also do things that need doing that Regular law abiding federation personnel are unable to do or at least that's their philosophy.

CAPTAIN NATHAN PHILLIPS You didn't answer my question Admiral, are you part of this Section 31?

ADMIRAL BLACK

No.

CAPTAIN NATHAN PHILLIPS
Okay putting aside the fact that we have a rogue intelligence agency that has its own agenda to undermine Federation values of which I just found out about, how do we know that this changeling is the only prototype? Is Starfleet certain there are not more of these things lurking around? Oh I don't know working for the Borg maybe? I mean why stop there? We could have Cardassian looking androids working for the Bajorans!

(laughs) It's good to know your sense of humor is still there. Listen I know this is a lot to take in at the moment, you're upset..

CAPTAIN NATHAN PHILLIPS
Upset? What you just told me goes
against everything the federation
stands for.. Section 31 or whatever
secret organization its called
exists and is now in the business
of building artificial changeling
assassination lifeforms to target
anyone it doesn't agree with
without impunity! That puts every
federation citizen and Federation
Vessel and crew in the line of
fire! I can't believe were going
back to the fear mongering of the
Dominion War again!

ADMIRAL BLACK

Well.. we're not since the rest of the Dominion isn't involved here but i get your point! I'm not happy about it either Nathan but its the way things have been for a VERY long time. Besides, It's more of a machine hunt. The bottom line is, we don't know Section 31's motives yet for this technology but what do know is that the prototype is destroyed.

CAPTAIN NATHAN PHILLIPS What are we telling the New Romulan Government about the attempt?

ADMIRAL BLACK

For now, it was a rogue changeling attack and that the Dominion have already described it as not in their interests or concern and that the Changeling in question was coerced into it. Which of course they will try to verify with the Dominion. Our spies on the founders council will take care of that for us.

CAPTAIN NATHAN PHILLIPS The Romulan's aren't going to buy that!

(MORE)

CAPTAIN NATHAN PHILLIPS (CONT'D)

As soon as they do their analysis they will discover the technology behind the remains of the prototype!

ADMIRAL BLACK Yes however none of that is traceable to us or section 31.

CAPTAIN NATHAN PHILLIPS Good thing Romulan's don't value trust or anything. Not a great way to start diplomatic relations! Dare I ask how you know that the prototype can't be traced back to us? I mean the Federation?

ADMIRAL BLACK
Because unlike the remains of a
real changeling. when they die
their cells fully destroy
themselves and turn to charred nonorganic compounds. All of the
evidence is essentially erased.

CAPTAIN NATHAN PHILLIPS
Theres no evidence to suggest they
don't have others ways of figuring
it out? There is no way you could
know that information for sure,
unless Section 31 stole it from the
Federation weapons Research
division either. So let me guess,
the Federation not only designed it
and made parts, they actually had a
working Assassination training
department in operation too didn't
they? Care to tell me about that?

ADMIRAL BLACK That is classified Nathan.

CAPTAIN NATHAN PHILLIPS
Yeah I bet. So how far is the
federation in bed with Section 31
then? The Romulan's will retaliate
against the Dominion and us if they
ever find out the truth about this!
We can't afford another war
Admiral! I lost my oldest son in
the last war!

NAthan, you are running under the assumption i'm not on your side.. I am. I don't want another war either.. no one does but there are certain.. realities... for lack a of a better word that Starfleet feels they need to keep on top of. Besides, the Dominion won't find out. We've promised the Romulans and the Dominion support and evidence to suggest otherwise. So far the New Romulan government is satisfied that any attack that might have occured was not the Dominion and they are quick to drop the matter and move on to more pressing issues at hand. I have been in further contact with the Proconsul's office right before you called me in here.

CAPTAIN NATHAN PHILLIPS
Well i guess thats something at
least. Admiral.. My duty requires
me to file a report to Star Fleet
Command on this.. Your conduct on
this mission has quite frankly been
erratic. This has also strained
both our friendship as well as my
professional confidence in your
leadership out here Jeff. My report
will reflect that. I'm sure Admiral
Janeway will also agree with me.

ADMIRAL BLACK

I'm sorry you feel that way Nathan. we can discuss our friendship later. We still have a job to do and I intend on carrying it out. I am still in command here of the overall mission strategy until the Federation Security council says otherwise. You will remain in command of the Falcon unless i feel we need a change. Do we understand each other?

CAPTAIN NATHAN PHILLIPS Perfectly!

We need to put our personal feelings aside and focus on the issues at hand. I won't be going anywhere for awhile, we have a lot of work to do to see the Romulan's through this period. Just to be clear, what i've told you in confidence you need to exclude from your Starfleet report. Section 31 is still out there and we now have a potential threat with one of the factions being able to steal our access codes, impersonate our Ambassador and almost assassinate the New Romulan Proconsul. There's definitely a leak which means we can't disclosue any of what I just told you, especially in a report.

CAPTAIN NATHAN PHILLIPS File a false report Admiral? I won't do that.

ADMIRAL BLACK Not a false report, just leave out certain key details.

CAPTAIN NATHAN PHILLIPS I can't believe i'm hearing this Jeff.

ADMIRAL BLACK

Listen! I'm also concerned that the Romulan virus you first encountered when you left spacedock may have been the same information leak due to a surveillence program and could have been part of the PSW's second agenda. Is your team confident they have erratticated the virus from Falcon's systems?

Okay good to hear. I'm ordering you not to include the prototype information or Section 31 involvement to Starfleet for now in your report and to compartmentalize the information to your senior staff and anyone who was involved down on the planet for now, understood?

CAPTAIN NATHAN PHILLIPS

Yes Sir!

The comm chirps

LT. CMDR. BIKKIR VUUM (O.S.) Security to the Captain.

CAPTAIN NATHAN PHILLIPS Go ahead Bikkir

LT. CMDR. BIKKIR VUUM (O.S.) Sir we've found the Ambassador and he's alive! We're taking him to sick bay on Deck 3.

CAPTAIN NATHAN PHILLIPS We will be docking with Falcon shortly. As soon as we are docked, escort him to the main Sickbay on Deck 16, Doctor Abbul can have a look at him. I'll signal him to expect our arrival, Phillips out.

The captain turns back to the Admiral

CAPTAIN NATHAN PHILLIPS (CONT'D) Admiral, I think were done here for now? I have some things to do before Falcon is read to depart for Federation space.

ADMIRAL BLACK
I'll leave you to your duties
Nathan.. We can talk more later, if
you want.

The Admiral Exits the briefing room

EXT. USS FALCON - SPACE (OPTICAL)

USS Falcon's Stealth Section re-docks with the Combat and Command Sections

INT. USS FALCON BRIDGE - COMMAND SECTION - DECK 20 - DAY

The Captain arrives on the bridge along with the other crew and then heads to his ready room.

CAPTAIN NATHAN PHILLIPS Status Report

COMMANDER LESLIE DURHAM Good to have you back Captain.

CAPTAIN NATHAN PHILLIPS Good to be back! Rough mission.. long story.. you'll have to read my report. Walk with me Commander.

INT. USS FALCON CAPTAIN'S MAIN READY ROOM - COMMAND SECTION DECK 20

The two enter the Captains ready room and get comfortable.

COMMANDER LESLIE DURHAM Yes, it seems the Admiral..

CAPTAIN NATHAN PHILLIPS I haven't had a meal nearly all day. Do you want anything?

COMMANDER LESLIE DURHAM Ah. No, I'm fine thanks

CAPTAIN NATHAN PHILLIPS Computer, Chinese Food: Chicken Balls, Moo Goo Guy Pan, Rice and Mixed vegetables and a fortune cookie. Oh and a large glass diet coke.

REPLICATOR
Please specify Chinese food region
of preference

CAPTAIN NATHAN PHILLIPS Toronto, Canada, China town area..

Turns toward the Commander

CAPTAIN NATHAN PHILLIPS (CONT'D) I visited there once, they had some pretty amazing Chinese food. The Replicators can only approximate but its still half decent.

COMMANDER LESLIE DURHAM Chinese food in Canada? I've never been to Canada before.

CAPTAIN NATHAN PHILLIPS
Really? Oh you gotta visit
sometime.. Lots of nice scenery and
the people are fantastic.. My Great
uncle is Canadian, we used to visit
there when I was a kid.. Anyways
sorry i went on a tangent.. You are
anxious to talk about what you
found?

The Commander hands the Captain a PADD

COMMANDER LESLIE DURHAM Bikkir and I have a strong suspicion that the Admiral may be working for Section 31.

CAPTAIN NATHAN PHILLIPS I have that suspicion too. What evidence do you have?

COMMANDER LESLIE DURHAM
Over the last year the Admiral has
been in frequent contact with some
rather odd characters. There have
also been monetary withdrawls from
the Federation funds usually made
to pay for disaster relief to
worlds outside the federation. As
you know within the federation
there is no real currency exchange
for resources now but outside there
are. These were siphoned off to
certain Romulan and.. get this,
Human contacts..

CAPTAIN NATHAN PHILLIPS Humans operating outside the federation? Interesting, but that doesn't quite mean the Admiral is Section 31 or that hes not working within the quidelines.

COMMANDER LESLIE DURHAM No.. but the fact that the Admiral has been operating in the dark from the Federation Admiralty and that he seems to have ships under his command that only recently were decommissioned... I checked and the two Galaxies that originally escorted us, were only recently decommissioned a bout 2 weeks before they escorted us. Their Federation transponders were never turned off so they appear to be federation.

CAPTAIN NATHAN PHILLIPS
Are you telling me that our escorts
were in fact not working for
Starfleet? That the Captains of
those ships of whom one of them I
know went the academy withme, were
working for Section 31?

COMMANDER LESLIE DURHAM It appears so, or possible some other organization..

CAPTAIN NATHAN PHILLIPS How is that possible? That means the federation has no idea they just lost two of its Captains and vessels and we have no proof other than our sensor logs... Wait, tell me we still have the sensor logs?

COMMANDER LESLIE DURHAM Deleted, I'm afraid. And so are the backups. I am guessing this was either one by The Admiral, one of his staff or the Romulan Ambassador.

CAPTAIN NATHAN PHILLIPS Why would the Admiral have his own escorts that the federation knows assumes are their vessels and then risk them against the Romulans to help us? Nothing about this makes sense to me and Admiral Janeway is not going to like this! My New command on Falcon is turning out to be more than I bargained for.

(MORE)

CAPTAIN NATHAN PHILLIPS (CONT'D)

Okay, Tell Bikkir to increase security around the main computer core and implement "paranoia mode" please, at least temporarily until we can figure out whats going on. We need a lot more information and evidence on the Admiral and his activities before we can do anything.

COMMANDER LESLIE DURHAM Aye sir.

CAPTAIN NATHAN PHILLIPS
Until we can absolutely prove the
Admiral is a traitor or working for
section 31 or god forbid worse, and
outside government, we will
continue to monitor him for now.
Leslie, I'm definitely going to
need your help with this, Jeff
knows me inside and out, He may
anticipate my actions better than i
can.

COMMANDER LESLIE DURHAM
Yes Sir. Did you want to talk about
the mission and how it went?

CAPTAIN NATHAN PHILLIPS
Just another day in international
terrorism! Suffice to say it could
have gone a lot worse but we do
have another problem to worry about
now, assassin changeling like
weapons. I'm going to finish this
meal, write the report which you
can should read and then I'm going
to get some rest. I'll fill the
rest in later. How are the rest of
Falcon's repair's coming along?

COMMANDER LESLIE DURHAM Falcon should be good to go operationally in a few hours and then we can get underway. No signs of enemy vessels or issues currently. The Romulan factions are keeping their distance. Probably too busy pulling their troops out of New Romulus.

CAPTAIN NATHAN PHILLIPS Okay we'll touch base in a few hours.

The Commander walks out of the Ready room.

INT. USS FALCON - OFFICERS DECK - NEAR CAPTAINS QUARTERS - DECK 23

The Captain walks the corridors and turbolift to his personal quarters and yawns as he approaches his quarters door.

CAPTAIN NATHAN PHILLIPS (V.O.)
Captains Log supplemental, Falcon's
repairs are proceeding nicely and
I'm looking forward to returning to
Federation space after an eventful
mission. The crew performed
excellently in the face of
overwhelming odds as did Falcon
herself. The Romulan situation is
far from over but I can see a small
light at the end of the tunnel. I
suspect this military coup is just
a start of what may be a very long
and drawn out conflict.

The Captain opens his door to find M'Mora Fang laying down comfortably on his bed.

LT. M'MORA FANG Its about time..

CAPTAIN NATHAN PHILLIPS Sorry, been a busy day. I see you've made yourself comfortable. Did anyone see you come in?

Nathan takes off his Uniform jacket and gets more comfortable.

LT. M'MORA FANG
You're too worried about it Nathan.
No one saw me come in.

CAPTAIN NATHAN PHILLIPS
It's been a very long and stressful
mission, how did you make out with
the other crews from the other
vessels? Did you get them all
assigned?

LT. M'MORA FANG
Yes and all trained on Falcon's operations. I think we've integrated the ones were keeping for duty until we reach star base where the Admirals may decide to shift personnel again. Its never easy these days. How did it go down on New Romulus?

CAPTAIN NATHAN PHILLIPS Horrible, but that's not what I want to talk about right now..

LT. M'MORA FANG Ohhhh what do you want to talk about?

She leans in to flirt

CAPTAIN NATHAN PHILLIPS Jeff.. I mean, Admiral Black.

LT. M'MORA FANG
That's not the topic I had in mind,
what about him?

CAPTAIN NATHAN PHILLIPS You've been close to his staff now for a while right? What's your take on what's going on with them?

LT. M'MORA FANG Well, they are a secretive bunch that's for sure.. they don't tell me much other than routine things.

CAPTAIN NATHAN PHILLIPS Nothing out of the ordinary?

LT. M'MORA FANG
Define ordinary? Starfleet in
general has been very secretive as
of late in regards to even routine
things. Most of the comm traffic
and fleet liaison and personnel
transfer stuff has all been a bit
odd lately..

CAPTAIN NATHAN PHILLIPS Odd? How?

LT. M'MORA FANG

Lets just say, it appears Starfleet is like 3 different organizations right now with each third not knowing what the other thirds are up to. it's actually quite weird. Its caused a lot of confusion with trying to get things approved or personnel changes etc..

CAPTAIN NATHAN PHILLIPS Keep an ear out.. we may be headed for trouble. Never a dull moment when there are Romulan's around.

LT. M'MORA FANG Okay enough talk my captain..

She starts to undress her top in front of the Captain and sits on his lap.

CAPTAIN NATHAN PHILLIPS I'm supposed to be resting..

LT. M'MORA FANG You can rest after..

CAPTAIN NATHAN PHILLIPS
You know I could get in a lot of
trouble for "collaborating" with a
subordinate...

LT. M'MORA FANG You like trouble! Besides its never stopped you before.

She touches his nose in a flirtatious way.

CAPTAIN NATHAN PHILLIPS Computer.. Lock the door and turn off the lights!

FADE OUT:

INT. USS FALCON BRIDGE - COMMAND SECTION - DECK 20

Two hours later, The crew is attending to tasks and duties on the bridge.

CHIEF ENGINEER COMMANDER VORIK (O.S.) Engineering to Bridge.

COMMANDER LESLIE DURHAM

Go ahead

CHIEF ENGINEER COMMANDER VORIK Sufficient repairs are complete you have Warp drive capability.

COMMANDER LESLIE DURHAM Thank you Vorik, Helm lay in a course for Star base 7-One-8 and Engage at Warp 8.

HELMSMAN #2
Aye Commander, Course laid in and engaging at warp 8.

INT. ROMULAN BATTLESHIP - BRIDGE - NIGHT

A Large Romulan Bridge with a Tachyon tactical map shows Falcon's icon appear from the nebula and then warp out of the sector towards federation space. There are several Romulan commanders, and crew standing in formation around the Bridge in anticipation of an execution of the Ground command Generals who are kneeling waiting for the Warlord to arrive.

GENERAL ATAM VREENAK
My friends! We have been betrayed.

ROMULAN CAPTAIN

But sir!

GENERAL ATAM VREENAK
DO NOT interrupt me sir. You will
have your chance. I see you have
neatly lined up our Ground assault
generals for my attention today...

ROMULAN CAPTAIN #2
We reviewed the performance of each of them and not one of them scored any victories. We thought you might have something to say about that.

GENERAL ATAM VREENAK
I do, however I don't fault the
Generals! This wasn't a fair fight!

ROMULAN CAPTAIN #3
I don't understand! It's clear they failed!

GENERAL ATAM VREENAK Silence! The failure was everyone's! You see.. when we fail to convince our own people to follow us rather than the Federation, who do you think is at fault?

ROMULAN CAPTAIN #4
Sir, I agree we are all to take
blame here but we are fighting a
war of minds as well as division!
You cannot expect us to kill our
own kind and win that kind of a
battle easily. Many have friends
and family down there!

GENERAL ATAM VREENAK
Cannot expect us to kill our own
kind? Yet you blame our General's
here for the loss and are willing
to sacrifice them in a heartbeart?

ROMULAN CAPTAIN #1 A price has to be exacted or the men will not follow another order sir.

GENERAL ATAM VREENAK
Are you telling me what to do
Captain? Are all of you telling me
how to command now? Perhaps you
think I am weak? A fool?

ROMULAN CAPTAIN #2
There is division even amoungst this room. That must be stopped.

GENERAL ATAM VREENAK Shall we take a vote then?

The Romulan Captains start to talk to each other and chaos ensues.

Each Romulan Captain and General is given a voting object in his or her hand and the Generals all stand up.

GENERAL VREEENAK

General's stand up! You also get a chance to vote. It appears we need a vote on who is to blame! The new Romulan Government likes to vote.. the people like to feel confidence in their leadership.

GENERAL ATAM VREENAK You know what I like to feel? Loyalty and unity. There is a failure in this room!

Just then 3 of the 10 voting machines start killing 3 of the groveling Romulan Captains by agonizing disintegration and they scream in agony as the rest of the leadership watches in horror.

GENERAL ATAM VREENAK (CONT'D) This is your federation democracy in action! And it's result is Death! Each and every time you disobey me or fail me and our people in this way, the responsible will die! Is that understood? I do not enjoy listening to your lies, your federation sympathies and your problems! We are at War! Do not blame others for your own traitorous and cowardly acts on the battlefield or in the skies above! Our generals did exactly what they were told to do. They should have died there defending Romulan freedoms but they didn't because i ordered them to retreat! I am disappointed they did not die themselves to prove their worthiness to the cause and their men but then again we are not Klingons and the strong will live to fight another day! Generals you get a second chance! Do not fail our people again! Are you with me?

The Generals all cheer Vreenak

GENERAL ATAM VREENAK (CONT'D)
The Captains do have a point, this
was a loss due to not winning the
hearts and minds of our fellow
Romulan's but also a divided loss,
we must regroup, seek allies in our
cause and fight another day!
Victory this day goes to the New
Romulan Republic and the Federation
but not for long as I vow to make
the federation pay for it's
interference and to find allies in
our goal of reuniting and make
Romulus strong once more!"

Cheers all around from the leadership erupt.

END OF ACT FOUR

ACT FIVE

INT. USS FALCON - GRAND MESS HALL - DAY

A lot of crew are unwinding and sharing meals as the ship is traveling at warp.

ENSIGN EDWARD ALVAREZ
So he says to the guy, what? No
Romulan Ale? and the guy says..
no.. The Andorians hate the color!

The group of junior officers laugh as Subcommander Telura Matar enters the mess hall along with Engineering assistant and few of the flight and engineering crews.

ENSIGN EDWARD ALVAREZ (CONT'D) Hey! Does anyone else think its weird that we have a Romulan Subcommander who gets to tell us what to do?

ENSIGN DAVIES
Its odd but not unheard of..

ENSIGN EDWARD ALVAREZ
That woman gives me the creeps..
always looking over my shoulder..
Hey! Lieutenant! How are things in
Engineering?

CHIEF ENGINEERING ASSISTANT LT. TALOUR Drop the Rank, Alvarez.. I'm off duty. To Answer your question, horrible.. we've been doing double and triple shifts in Engineering around the clock just to keep the warp drive going until we get home and repairs are extensive. The Romulan's did a number to our systems during the engagements, not only that but the major battle damage on the hull and micro fractures all over the combat section's exterior and interior structure that we didn't notice before. Were going to be in spacedock I think for about a month.

ENSIGN EDWARD ALVAREZ
Thanks for the update.. but i'm not
your superior asking for a full
report!

(the rest of the crewman chuckle)

CHIEF ENGINEERING ASSISTANT LT. TALOUR Shut up Alveraz!

ENSIGN EDWARD ALVAREZ So, What do you think of our new Science officer Talour?

CHIEF ENGINEERING ASSISTANT LT. TALOUR To be honest I haven't met her yet.. too busy with repairs. Why?

ENSIGN EDWARD ALVAREZ Don't you feel having a Romulan onboard is ummm a bit weird?

CHIEF ENGINEERING ASSISTANT LT. TALOUR As opposed to having a Cardassian or a Nausicaan on the bridge Alveraz? I know what this is, Alveraz thinks she hot! I know that look Eddy!

The rest of the crewman laugh, then Lt. Wong walks over and the crew come to order.

LT. WONG

How is everyone doing here?

EVERYONE

Fine sir! Good

LT. WONG

Were coming into spacedock in a few minutes, you should all get to duty stations.

ENSIGN EDWARD ALVAREZ I'm so looking forward to some $\ensuremath{\mathtt{R\&R..}}$

LT. WONG

You should get a chance while were back in space dock, ensign, repairs to Falcon are quite extensive.

ENSIGN EDWARD ALVAREZ Holy crap. maybe i'm not going to get that R&R...

Just then the USS Falcon comes out of warp far from the station and there is a ton a debris from Romulan and federation ships but the Station appears damaged but intact and Red Alert is sounded and the crew scrambles from the mess hall.

INT. USS FALCON BRIDGE - COMMAND SECTION - DECK 20 - DAY

The bridge is listening to a Federation news broadcast message just and watching the screen while the clip plays

FEDERATION NEWS SERVICE BROADCASTER (V.O.)

As we have been broadcasting Star base 718 was attacked about 30 minutes ago and reports are coming in that the station survived. A group claiming to be the Tal Shiar are taking responsibility for the destruction. We received a recorder a short time ago from an anonymous source claiming to be the Tal Shiar leadership and we are playing that now.

COMMANDER LESLIE DURHAM I thought the Tal Shiar were destroyed?

An image of the Tal shiar logo and a blacked out silhouette and masked voice is displayed on screen.

TAL SHIAR VOICE (0.S.)
The Tal Shiar have come out of the Shadows for this important message to the Federation and its rogue warriors that call themselves section 31! New Romulus is still strong and will never bend its will to the inferior rebels, the Orion Syndicate, the New Republic or any other disloyal servants or enemies of the state in its attempts to rebuild the empire!

(MORE)

TAL SHIAR VOICE (O.S.) (CONT'D)

For every Romulan citizen or loyal subject of the empire killed 10 times will be killed in return! Today our operatives destroyed several Federation vessels and cripple a federation star base along the border. This will continue as long as the Federation interferes in our affairs. This is the order of things in the Tal Shiar and honor will be restored. The Romulan Empire is strong and we will not tolerate intrusion! For all our Romulan brothers and sisters of the Raptors claw, we will unite once more and make Romulus whole again!

The crew is a little stunned as the Captain and Commander look at each other with concern.

FADE OUT:

END OF ACT FIVE
